CAREER ASPIRATION

Motivated engineering graduate with a strong foundation in electronics, embedded systems, IoT, and software development. Hands-on experience in developing academic projects that combine hardware and software technologies, along with knowledge of front-end web development and programming. Adaptable and eager to learn, with a focus on problem-solving, teamwork, and building practical technology solutions.

EDUCATION

Knowledge Institute Of Technology 2023 - 2027
CGPA : 8.53

Cluny Matriculation Higher Secondary School 2022 - 2023
Percentage : 81.33

SKILLS

- C
- JAVA
- BOOTSTRAP
- HTML
- CSS

TECHNICAL PROJECT

SecureKnock System :

- Developed a smart door security system using Arduino, knock detection, buzzer, LED, relay module, and solenoid door lock.
- Detects authorized knock patterns and controls the door-lock mechanism through the relay.
- Provides an alert through the buzzer/LED when an unauthorized access attempt is detected, improving security and controlled entry.

VigilMotion – Fingerprint & Motion-Based Security System :

- Developed a fingerprint-based cupboard security system integrated with a motion detection mechanism for enhanced access control.
- The system verifies the user's fingerprint before allowing access and continuously monitors for suspicious movement.
- Triggers an alarm during unauthorized access attempts, combining biometric authentication and motion detection for improved security.

INDUSTRY EXPOSURE

- Undergone an internship on "Web Development" at imagecon, Salem from 15-07-2024 to 29-12-2024.
- Undergone an internship on "Embedded System Design In Industries" at Sans Innovation, Salem from 12-02-2024 to 17-02-2024

CERTIFICATION

- Presented a paper on "Virtual Reality at Mahindra Engineering College on 07.03.2024.
- Presented a paper on "Neuralink" at Paaval Engineering College on 08.11.2024.
