CAREER OBJECTIVE

To begin my career in a dynamic organization where I can utilize my knowledge, enhance my skills, and contribute with dedication, smart work, and a positive mindset toward achieving organizational objectives.

EDUCATION

BE [ECE] Sri Shanmugha College of Engineering and Technology 8.48 CGPA-(2023-2027).

SSLC Government Girls Higher Secondary School 75% - 2023

TECHNICAL SKILLS

- Embedded C Programming
- C Programming
- Fundamentals of Electronics

PROJECTS

Home Automation System

Developed a smart IoT-based Home Automation System for remote monitoring and control of household appliances.

IOT Based Vehicle Accident Detection and Rescue System

Developed an IoT-based system to automatically detect vehicle accidents using sensors and send emergency alerts with location details.

WeedX (Next Gen Precision Farming Robots)

Built an agricultural robot for automated weed detection and removal using ROS and STM Microcontroller.

Utilized Embedded Systems concepts to achieve efficient robot control and field automation.

TRAINING

- 5-Days Industrial Training on PCB Design Using Multisim Conducted by Infineon Technologies.Embedded
- Successfully Completed 33 Embedded System Mini Projects during LFT Training within (2 Weeks).
- Completed Training in Basics of Telecommunication at BSNL.

CERTIFICATION

- Basics of Embedded C Programming - Udemy
- BSNL Certified in Basic Telecommunication.
- Basics of VLSI Fundamentals - Edveon Technologies
- Paper Presentation & Workshop Participation
- IEEE Student Member

PERSONAL INTRESTS

- **Portrait Sketching**

  Passionate about sketching, which strengthens my creativity, patience, focus, and attention to detail.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
