## PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science and Business Systems student with a strong interest in Java and good knowledge of SQL, Object-Oriented Programming, and DevOps tools. A quick learner with problem-solving and analytical skills, eager to contribute to software development and real-world IT projects.

## EDUCATION

- *2023 – 2027*

B.Tech CSBS – Knowledge Institute of Technology 8.029 CGPA

- *2022 – 2023*

HSC – Sri Sarada Matric Higher Secondary School 66.33%

## SKILLS

- Programming Language: Java, Python, SQL
- Devops & cloud: Jenkins, Docker, Kubernetes
- Build & Version Control: Maven, Git, GitHub

## PROJECTS

**LearnLoop – AI-Powered Personal Learning Memory Platform**

- Developing a cross-domain learning platform that enables users to create personalized learning paths through manual creation and AI-generated editable roadmaps.
- Implementing concept-based learning memory with learning notes, key takeaways, confusion tracking, and prerequisite relationships to help users understand and retain knowledge.
- Tech Stack: Next.js, React, TypeScript, Tailwind CSS, PostgreSQL, Prisma ORM, Generative AI API.

**QR - Based Visitor Entry System**

- Developed a web-based visitor entry system using Node.js, HTML, CSS, and JavaScript to digitize visitor registration.
- Integrated Supabase (PostgreSQL) database to store and manage visitor details securely.
- Implemented features like visitor form submission and photo capture to improve security and record management.

**SQL Data Warehouse Project**

- Designed and implemented a SQL data warehouse using SQL.
- Worked on data integration, transformation, and analytical data modeling.
- Practiced organizing data for reporting and business analysis.

## CERTIFICATES

- Cloud Computing – NPTEL (SWAYAM), IIT Kharagpur | 12-Week Course | Elite + Silver | Jan–Apr 2026
- The Complete SQL Bootcamp (30 Hours): Go from Zero to Hero – Udemy | Sep 2026 CERTIFICATES
