Education

- **Kongu Engineering College** | 2022 - 2026
  B-Tech Artificial Intelligence and Data Science
  CGPA 8.00
- **Vivekananda Vid Matric.Hr.Sec.School**
  HSC | **94.83 %** SSLC | **99.0 %** | 2020 - 2022

Programming

- **Java**

Technical Skills

- **HTML**
- **CSS**
- **JavaScript**
- **React**
- **Nodejs**
- **Express**
- **PostgreSQL**
- **MySQL**
- **REST APIs**
- **Git**
- **GitHub**
- **ML**
- **DL**

Certifications

- The complete Full-Stack Web Development Bootcamp
- Microsoft-certified Azure AI Engineer Associate Certification

Leadership

- **Executive Member**
  Mobile App Club
  Kongu Engineering College
  2023-2024

Career Objective

Looking forward to a role where, through new technology and technical skills, innovative solutions can be found for real-world problems. A Curious person with a keen interest in Web Development and related field who likes to leverage both the company's and personal values.

Paper Presented

Title: Leaveraging Advanced Deep Learning Architectures for Precise Knee Osteoporosis Prediction: A Paradigm Shift in Diagnostic Health Care.

Projects

Tender Management System — TypeScript | Tailwind CSS

React.js | Node.js | Express.js | MongoDB | Rest APIs | NodeMailer | JWT

Tender Management System is done for civil construction institutions to streamline the collection and management of customer tender requirements. Implemented REST APIs, JWT based authentication, admin dashboard, tender search and filtering, pagination, status management and automated email notifications using Nodemailer.
Live Web Link : https://dhiya-frontend.vercel.app/

Inspiring Souls — HTML | CSS

Developed a responsive personal webpage showcasing 10 inspirational personalities with dedicated sections containing images, descriptions and quotes. Implemented a clean layout and user- friendly navigation with responsive design for desktop and mobile devices.
Live Web Link : https://inspiring-souls.vercel.app/

CAD Risk check — ML | Streamlit

Coronary Risk Check is a machine learning-powered web application that demands the user's health details and provides CAD risk management.
Live App Link : https://coronary-risk-check.streamlit.app/

Bone Abnormality — YOLOv8 to YOLOv11 , Ghost YOLOv11

A Deep Learning based YOLO Family detection of Bone Abnormalities in Wrist X Ray images with architectural changes performed in Ghost YOLOv11 model.
