Stevie-Alan-Anto

TECHNICAL SKILLS

- Python, SQL, OOP, SDLC, REST APIs
- Application Support, ITSM, Incident Management
- Troubleshooting, Debugging, Process Automation
- System Monitoring, Cloud Computing (Basics)
- Application Maintenance, Performance Monitoring
- Git, GitHub

SOFT SKILLS

- Problem Solving
- Troubleshooting
- Analytical Thinking
- Client Communication
- Team Collaboration

AREAS OF INTEREST

- Application Support
- Cloud Technologies
- Software Development, IT Operations
- Process Automation, System Monitoring
- Backend Development
- Digital Transformation

CERTIFICATIONS

- Infosys Certified Project Completion Intern – **Infosys**
- Fundamentals of Machine Learning – **Microsoft**
- Machine Learning using Python Programming – **Udemy**
- Automated Machine Learning for Beginners (Google & Apple) – **Udemy**
- Certified Cloud Computing Exam (AWS, Microsoft Azure & Google Cloud) – **Udemy**
- Academic Excellence Award (2024–2025) - Sona College of Technology

CAREER OBJECTIVE

Recent B.Tech Information Technology graduate with hands-on experience in Python, SQL, Object-Oriented Programming, REST APIs, Git, application development, debugging, and automation. Skilled in application support, incident troubleshooting, system monitoring, process automation, and software maintenance. Strong analytical and problem-solving abilities with experience in real-time monitoring systems, data validation, and backend development. Passionate about cloud technologies, IT operations, and delivering reliable enterprise solutions in a fast-paced environment.

EDUCATION

B.Tech, Information Technology 2022 - 2026

Sona College of Technology CGPA: 7.69

Senior Secondary (XII), Tamil Nadu State Board 2022

Holy Cross Matriculation Higher Secondary School - 75%

Secondary (X), Tamil Nadu State Board 2020

Holy Cross Matriculation Higher Secondary School - 79%

PROJECTS

NICU Monitoring System using IOT and Machine Learning Dec 2024 - May 2025

- Developed an AI-assisted real-time NICU monitoring system using IoT sensors and Machine Learning, performing anomaly detection, debugging, data validation, and system reliability optimization to reduce false alerts.

Parkizo - Smart Parking Management System Jan 2025 - March 2025

- Developed an IoT-based smart parking system using ESP32-CAM, OpenCV, Firebase, and Android for parking-space detection and real-time parking information.

Smart Shogi Board Logger Dec 2025 - March 2026

- Developed a real-time computer vision system using Python and OpenCV for automated move detection, implementing image processing, debugging, state tracking, and system monitoring to ensure application reliability.

ACHIEVEMENTS

- Finalist among 32 teams in TECHgium® 2024 (**L&T Technology Services**) for presenting an AI-based Real-Time Monitoring System for NICU.
- Honored with the Academic Excellence Award (2024–2025) at Sona College of Technology for consistent outstanding academic performance.
- Inspiring Awards – Certificate of Appreciation (2025, 2026), Best Performer – research & in-house projects
- Won ₹10,000 Cash Prize at MIT Samhita 2024 for Paper Presentation.
- Event Coordinator, FIFA Tournament – PORT'26 Symposium, organized and managed the event successfully.
