SKILLS

Leadership & Operations
Team Leadership, Coaching & Mentoring, Workforce Planning, Staff Scheduling

Technical & Quality
Process Improvement, Operational Reporting, Root Cause Analysis, Mechanical Engineering

Software & Tools
SolidWorks, Microsoft Office, Office 365

Communication
Presentation, Interpersonal & Operational Communication

CERTIFICATIONS

- Merit Certificate
- 2-Day SolidWorks Course
- Design Thinking
- TQM & TPM
- Internal Hackathon

ACHIEVEMENTS

- Best NSS Volunteer
- Merit Award
- Best Student
- NSS Leader

S. ROHITH RAJA

SUPERVISOR

PROFESSIONAL SUMMARY

Results-driven Production Supervisor at Deva Steel Kochi Private Limited with a solid background in Mechanical Engineering. Dedicated to leading high-performing teams, maintaining rigorous quality standards, optimizing machine utilization, and driving operational efficiency within fast-paced manufacturing environments.

WORK EXPERIENCE

PRODUCTION SUPERVISOR

Deva Steels Kochi Private Limited — Sulur, Coimbatore

May 2026 – Present

Overseeing daily manufacturing workflows, managing shop floor personnel, and ensuring compliance with quality and safety benchmarks.

- Led a team of 20+ staff members to consistently achieve 95% production efficiency.
- Implemented comprehensive training on safety protocols, successfully maintaining a record of zero workplace accidents.
- Monitored daily production schedules to guarantee 100% on-time order delivery.
- Conducted regular employee performance reviews to boost overall team morale and productivity.
- Managed material inventory effectively, reducing overall operational costs by 10% through accurate forecasting.
- Facilitated cross-departmental communication to streamline workflows and eliminate operational bottlenecks.

EDUCATION

DIPLOMA IN MECHANICAL ENGINEERING

Kongu Polytechnic College — Perundurai, Erode

Apr 2023 – Apr 2026

Acquired core technical knowledge in mechanical systems, manufacturing processes, quality control principles, and engineering design.

- Completed an extensive capstone project focused on renewable energy systems.
- Graduated in the top 10% of a cohort comprising 150 students.
