PROFILE SUMMARY

Computer Science and Technology student (B.E., 2027) with hands-on experience in Python, automation, computer vision, and ERP development. Completed internships in Python automation and full stack development. Seeking a fresher role in Data Analytics, Python Development, Software Development, or AI/ML to apply skills in data processing, machine learning, and problem-solving.

TECHNICAL SKILLS

Programming Languages: Python, Java, C++

Data & Analytics: Power BI, Data Processing, Data Extraction, Web Scraping, Data Structures

AI / Machine Learning: Machine Learning, Artificial Intelligence, Computer Vision, OpenCV

Web Development: HTML, CSS, JavaScript, ERP Development

Databases: Database Management Systems (DBMS)

Tools & Automation: Selenium, GitHub, Visual Studio Code

INTERNSHIP

Full Stack Developer Intern | Odugaa Tech

- Contributed to the development of an ERP system as part of a full stack development team.
- Worked on the Purchase module of the ERP system.

Python Intern | Cybernaut EdTech Pvt Ltd

- Developed Python scripts to automate data processing tasks.
- Improved workflow efficiency by automating repetitive data handling

PROJECT

Face Recognition Medical System | Python, OpenCV

- Built a face recognition system to identify patients and retrieve medical records automatically.
- Applied computer vision techniques to improve identification accuracy and reduce manual search

Crypto Price Tracker | Python,Selenium

- Developed a python-based tool to monitor real-time cryptocurrency prices from web sources.
- Automated data extraction and processing for continuous market tracking.

IMDB Movie Rating Scraper | Python,Selenium

- Created an automated web scraping tool to extraction movie rating from dynamic websites.
- Implemented browser automation using Selenium for structured data collection.

ACADEMIC QUALIFICATION

Bachelor of Engineering (B.E) – Computer Science and Technology

Vivekanandha College of Engineering for Women, Tiruchengode 2023-2027 CGPA: 7.3(pursuing)

CERTIFICATIONS

- Affective Computing - Course Completion Certificate
- Full Stack Development - Internship Certification
- Android App Development - Skill Development Certification
