CHANDRU ANBALAGAN

Data Analyst | Python Developer | Django Developer | Claude AI

chandruanbu3535@gmail.com | +91 6381179892 | Salem, India | linkedin.com/in/chandru-anbalagan | github.com/chandru3535

PROFESSIONAL SUMMARY

Data Analyst and Python Developer with over 1 year of hands-on experience in data analysis, business intelligence, and Python-based application development, combined with strong practical expertise in Claude AI for AI-assisted software development. Skilled in using Claude AI to accelerate coding, debug applications, generate documentation, and design end-to-end solutions - including building a single-page web application with full database integration. Proficient in Python, SQL, Power BI, Tableau, Excel, and the Django framework for building data-driven solutions and web applications. Experienced in data extraction, preprocessing, visualization, dashboard development, healthcare analytics, and machine learning model development.

TECHNICAL SKILLS

Programming Languages: Python, SQL, HTML, CSS

AI Tools & Prompt Engineering: Claude AI (Anthropic) - Hands-on experience using Claude AI across the full development cycle: requirement analysis, code generation, debugging, database integration, and technical documentation; skilled in prompt engineering to guide AI-assisted development of single-page web applications and automate repetitive coding tasks

Python Libraries & Frameworks: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, SQLAlchemy, Django, Django ORM

Databases & Data Engineering: MySQL, PostgreSQL, SQL Queries, Joins & Subqueries, Aggregations

Machine Learning & Analytics: Machine Learning, EDA, Feature Engineering, Classification Models, Cross Validation

Data Visualization & BI Tools: Power BI, Tableau, MS Excel, Matplotlib, Seaborn

Development Tools & Platforms: VS Code, Jupyter Notebook, Google Colab, MySQL Workbench, Git & GitHub

PROFESSIONAL EXPERIENCE

Python Django & Analytics Developer | Xoptooz – Associate Software Engineer *Jun 2025 - Present*

Salem, India

- Developed and maintained Python-based Django web applications with data-driven modules and backend functionalities.
- Used Claude AI as an AI-assisted development tool to accelerate coding, generate boilerplate, debug issues, and produce technical documentation.
- Extracted and analyzed data from SQL databases, APIs, and Excel sources to support business reporting and decision-making.
- Performed data cleaning, preprocessing, and transformation using Pandas and NumPy.
- Conducted Exploratory Data Analysis (EDA) to identify trends, patterns, and actionable business insights.
- Built interactive dashboards and KPI reports using Power BI, Tableau, and Excel to monitor business performance.
- Utilized advanced SQL queries, joins, subqueries, and aggregations for complex data extraction and reporting.
- Implemented database integration and management using Django ORM with MySQL and PostgreSQL.
- Created automated workflows and reporting solutions to improve operational efficiency.

PROJECTS

AI-Assisted Single Page Web Application - Built with Claude AI

- Designed and developed a single-page web application end-to-end using Claude AI as an AI pair-programming tool.
- Implemented complete database integration for dynamic data storage, retrieval, and management.
- Used Claude AI for rapid prototyping, code generation, debugging, and optimizing front-end and back-end logic.
- Reduced overall development time by leveraging AI-assisted coding for UI components, routing, and backend APIs.

Healthcare Analytics and Machine Learning System

- Designed and developed a healthcare analytics system using PostgreSQL, Python, and Scikit-learn.
- Extracted and analyzed healthcare patient data from PostgreSQL databases using SQLAlchemy and Pandas.
- Built and evaluated multiple ML classification models including Random Forest, SVM, Logistic Regression, KNN, Decision Tree, and Gradient Boosting.

- Implemented Stratified K-Fold Cross Validation and performance metrics such as Accuracy, MAE, and MSE.

Data Analytics Dashboard - Power BI

- Built interactive dashboards to visualize sales, customer, and business performance data across multiple KPIs.
- Created automated data refresh workflows and KPI reports using Power BI and SQL.
- Used Python (Pandas, NumPy) for data preprocessing and transformation prior to dashboard integration.

Django Web Application

- Developed a full-stack web application using the Django framework with MySQL database integration.
- Implemented CRUD operations, user authentication, and database management using Django ORM.
- Configured URL routing, models, views, templates, and forms following Django best practices.

EDUCATION

Bachelor of Arts in English | *Jun 2017 - May 2020*
K.S.R. College of Arts and Science (Periyar University), Namakkal, Tamil Nadu

Higher Secondary Education (HSC) | *Jun 2016 - Apr 2017*
A.G.N. Matriculation Higher Secondary School, Salem, Tamil Nadu

CERTIFICATIONS & COURSES

- Data Analytics and Data Science - Blearn, Bengaluru
- Internship - Xoptooz Associate, Salem

CORE COMPETENCIES

Data Analysis • Business Intelligence • Python Development • Django Development • Claude AI / AI-Assisted Development • Machine Learning • Dashboard Development • Data Visualization • SQL Optimization • Analytical Thinking • Problem Solving

ADDITIONAL INFORMATION

Date of Birth: 25 November 1999 | Languages: English, Tamil | Location: Bengaluru, India
