PROJECTS

This project integrates solar energy with hydroponics to create a sustainable farming solution. It increases crop yield, conserves up to 90% of water, supports year-round production, and reduces land use and energy costs. Despite challenges like initial investment and maintenance, it offers an eco-friendly approach to agriculture.

INTERNSHIP

MAHINDRA COMPANY

Responsible for handling customer inquiries related to Tractors agricultural implements and ensuring timely maintenance of tractors. Acts as the point of contact for resolving issues, providing guidance on equipment usage, and supporting the efficient operation of tractors.
