siva1812005@gmail.com ◇ linkedin.com ◇ github.com

OBJECTIVE

Aspiring Data Analyst and AI/ML professional with a strong foundation in Python, SQL, machine learning, databases, and AI technologies. Seeking an entry-level opportunity to apply analytical and problem-solving skills while contributing to data-driven and real-world solutions.

EDUCATION

Master of Computer Science (MCA),
Kongu Engineering College,Erode,india. 2026-present

Bachelor of Computer Science (BCA),
Mary Matha College,periyakulam. 2022 - 2025

Higher Secondary,
Velammal Bodhi Campus,Theni. 2020 - 2022

SKILLS

Programming & Analytics: Python, SQL, Data Analysis

AI/ML: Machine Learning, RAG, LLMs, LangChain, Embeddings

Databases: MySQL, MongoDB, ChromaDB

Cloud & Tools: AWS, Git, GitHub

CERTIFICATIONS

AWS Cloud Practitioner (Certification Link)

PROJECTS

AI-Learning Material Generator: Built an AI-powered study assistant using LLMs including OpenAI, Gemini, and Grok to generate structured notes and learning materials from user prompts. Designed the system to provide personalized and context-aware educational content.

Campus Retail Management System: Developed a web application that enables students to list, rent, and sell electronic devices and academic products. Implemented product management and user interaction features to support a campus-focused peer-to-peer marketplace.

Leukemia Prediction using Deep Learning: Developed a CNN-based deep learning model for leukemia prediction using a Kaggle blood-cell image dataset. Implemented image preprocessing, data augmentation, model training, and performance evaluation to classify leukemia-related cell images.

AI-Powered RAG File Search and Summarization System: Built a RAG-based system using LangChain and ChromaDB that enables natural-language file discovery across multiple document formats. Implemented document ingestion, text extraction, chunking, embedding generation, vector similarity search, and LLM-based summarization to retrieve and summarize the most relevant file based on the user's description.

CO-CURRICULAR ACTIVITIES

- Participated in Smart India Hackathon (SIH) 2025.
- Developed and presented AI/ML projects involving **RAG, LLMs, LangChain, ChromaDB, and Machine Learning**.
