Higher Secondary (HSC) | ***Dheva Matric Higher Secondary School*** ***68.83% | 2022–2023***

PROJECTS

Smart Color-Based Object Sorting System Using Arduino

[Arduino Uno, TCS3200, Servo Motor]

Developed an automated color sorting system using Arduino and TCS3200 sensor.

Used servo motor for automatic object sorting.

Automatic Door Opening System

[Arduino Uno, HC-SR04, Servo Motor]

Developed an automatic door system using Arduino and ultrasonic sensor.

Used servo motor for touchless door operation.

INTERNSHIPS & PROFESSIONAL EXPERIENCE

Industrial Trainee — Mechanical Operations:

Shri Hari Machinery Manufactures (Coimbatore)

Acquired hands-on experience in sheet folding, rolling, shearing, and press brake operations under industrial quality standards.

Full Stack Development — Python Track:

Ether Infotech (Coimbatore)

Built dynamic web pages and integrated RESTful back-end services using Python-based frameworks.

CERTIFICATIONS

- **Full Stack Development — Python Track (Ether Infotech)**
- **Learnathon 2024 (8 Technical Courses)**
- **IOT based system design using ARDUINO UNO, ESP BOARDS and RASPBERRY PI**
- **RTL design using Verilog HDL**
- **Functional verification using System Verilog and UVM**

TECHNICAL SKILLS

- **Programming:** Python,Java, Verilog HDL
- **Web Technologies:**HTML,CSS
- **Hardware & IoT:** ESP32, ESP32-CAM, IoT Sensors
- **Tools & Platforms:** Git**,**GitHub, VS Code,Wokwi,Tinkercad

LANGUAGES & SOFT SKILLS

- **Languages:**
  Tamil, English
- **Soft Skills:**
  Team Collaboration, Communication
