PROFESSIONAL SUMMARY

B.Tech Information Technology student with a strong academic record (CGPA 9.29/10) and working knowledge of Java, Object-Oriented Programming, and full-stack web development fundamentals. Familiar with Spring, Spring Boot, REST APIs, and relational databases through academic projects and internship exposure. Seeking a Java Full Stack Developer / Java Developer fresher role to apply core programming and database skills while contributing to real-world software development.

TECHNICAL SKILLS

Languages: Java, SQL, HTML, CSS, JavaScript, Python

Frameworks: Spring Boot, REST APIs

Databases: SQL, MySQL, DBMS, MongoDB

Backend Development: Spring Boot, Spring MVC, RESTful APIs, Microservices, Hibernate, JPA

Tools & Platforms: Git, GitHub, Postman, Maven, Eclipse, IntelliJ IDEA, VS Code

PROJECTS

Human Knowledge Vault

Developed a full-stack knowledge management application using Java, Spring Boot, REST APIs, and MySQL for efficient data management. Designed and integrated the MySQL database for structured data storage, retrieval, and persistence. Developed backend business logic and API endpoints to support reliable communication between the frontend and backend.

Voice-Integrated Smart Desktop Assistant

Voice-controlled desktop assistant for automating routine tasks, integrated speech recognition and text-to-speech for interactive communication. Automated application launching, web searches, and system operations. Implemented command processing to handle multiple user requests efficiently, enabling hands-free desktop interaction to improve user productivity.

WORK EXPERIENCE

Cyfotok Infosec LLP, Coimbatore, Tamil Nadu *Full Stack Developer Intern*

- Gained hands-on exposure to full-stack development concepts, including front-end and back-end fundamentals.
- Worked on practical learning modules covering software development best practices.
- Collaborated on project implementation and technical documentation using Git/GitHub workflows.

LITZ Tech, Coimbatore *Full Stack Web Development Intern*

- Gained practical exposure to web development workflows, including front-end and back-end concepts.
- Assisted in building and testing web application features as part of a collaborative team environment.
- Applied version control practices using Git/GitHub for source code management.
