CARRIER OBJECTIVE

Technically proficient ECE student with hands-on experience in Python, SQL, and Data Analytics through professional internships. Seeking an entry-level role at Fintech to apply my analytical thinking and programming skills in developing data-driven business solutions and contribute to enterprise-level digital transformation.

EXPERIENCE

AI Intern

Brainary spot 15/07/2023 Coimbatore

Developed Python scripts to automate manual data processes.
Cleaned and pre-processed raw datasets for model analysis.
Evaluated AI model performance to ensure data accuracy.

Data Analytics

Xplore IT corp 18/07/2025 Coimbatore

Conducted data analysis using Python and SQL.
Generated insights to solve real-world business problems.
Created analytical reports and basic dashboards using Power BI.

EDUCATION

B.E – Electronics and Communication Engineering
KSR Institute for Engineering and Technology, Tiruchengode
CGPA : 9.42
2023–2027

Higher Secondary School Government Higher Secondary School, Manmangalam
2022 – 2023
85.6%

Higher Secondary School
Government Higher Secondary School, Vangappalayam
85% 2020 – 2021

ACHIEVEMENTS

- BestAcademicAward – 2024
- Selectedfor KarurDistrict-LevelChessTournament–2022
- District-Level Athletics Medal–2021
- District-Level Drawing CompetitionWinner–2021

WORKSHOPS AND PRESENTATIONS

- Presented paper on "AI-Driven Drone Technology" at Info Institute of
- Engineering, Coimbatore (2024) Participated in Symposium at PSG College of Technology (2023)
- Attended Cloud Computing Workshop – Kongu Engineering College (2023)
- Participated in Artificial Intelligence Workshop – PSG College of Technology (2024)

LANGUAGES

Tamil
English.

PROJECTS

Cyclistic Bike-Share Analysis (Data Analytics)

- Data Analysis: Performed user behavior analysis patterns.
- Customer Insights: Distinguished key differences between casual riders and annual members to target growth.

Dark Pattern Impact Analytics & Trust Score System

Technologies: SQL, Power BI, Git, GitHub

- Team project on application trust analysis using SQL and Power BI.
- Contributed to documentation, workflow, and final reporting.

UserWellnessDataAnalysis – Bellabeat Case Study

- Analyzed large-scale Fitbit datasets using Python (Pandas) to identify user habits and patterns in smart
- device usage.
- Developed data visualizations with Seaborn and Matplotlib to discover key correlations between daily physical activity and calorie expenditure.

SKILLS

- **Programming language**: Python,Java
- **Database**: SQL
- **Data Tools**: Power BI, Pandas
- **Web**: HTML, CSS, JavaScript
- **Concepts**: Data Structures, OOP
  Data Analysis, Data Visualization

CERTIFICATION

- Power Bi : Unithena
- Java Script : Cisco Academy
- Hackathon 2.0 : Praskla
- Data Analytics : FITA
- Academic performer : KSRIET
