VAISHNAVIDEVI KRISHNAKUMAR

B.TECH CERAMIC TECHNOLOGY

9488463392 / Namakkal - 637019 / 2022301044@student.annauniv.edu /

PROFESSIONAL SUMMARY

Dynamic and results-driven professional with extensive industry experience, seeking a full-time position that promotes skill development and knowledge enhancement. Committed to contributing to a collaborative team environment while driving continuous improvement initiatives. Passionate about acquiring new skills and applying them effectively in a fast-paced work setting. Dedicated to leveraging expertise to create a positive impact within the organization and support its strategic goals.

SKILLS

- Refractory
- Cement
- Traditional Ceramic.
- Advance Ceramic
- Adaptability
- Time management

PROFESSIONAL EXPERIENCE

PROJECT on Analyzing and Implementing the Permeable Concrete. **July 2024 - Nov 2024**

- Developed a permeable concrete layer achieving desired water permeability and compressive strength targets. Evaluated performance properties, including permeability, mechanical strength, and durability, through standardized testing protocols.

INTERN in SAIL REFRACTORY COMPANY Ltd, Salem, Tamil Nadu **June 2025 - July 2025**

- Gained hands-on experience in refractory manufacturing processes, including raw material preparation, mixing, shaping, and firing.Conducted quality control tests on refractory products, such as dimensional accuracy, apparent porosity, cold crushing strength, and thermal shock resistance.

PROJECT on Development of Cenosphere reinforced Wall tiles for buliding application **July 2025 - Nov 2025**

- Designed and prepared ceramic wall tile compositions incorporating varying percentages of cenospheres as a lightweight filler.Conduct mechanical, physical , and thermal properties.Identified optimal cenosphere percentage delivering the best balance of strength and enhanced insulation.

PROJECT on Study the microstructure and physical properties of bauxite with different origin and its effect on physical properties and thermo mechanical properties of high alumina brick and castables, RHI Magnesita Vizag)

Jan 2026 - Mar 2026

- I conducted a comparative study of Indian and Chinese bauxite to evaluate their suitability for manufacturing high-performance industrial materials. This project involved deep chemical and microstructural analysis to understand how different raw material origins impact the final quality of high-alumina bricks and castables.

EDUCATION

ALAGAPPA COLLEGE OF TECHNOLOGY, Guindy, Chennai. **Oct 2022 - July 2026**

DEPARTMENT OF CERAMIC TECHNOLOGY

CGPA 7.18 / Apr - 2025 (Upto 6 semester)

GHSS SELLAPPAMPATTY,NAMAKKAL -DT

HSC - 77.1 **2021 - 2022**

SSLC - 76.2 **2019 - 2020**
