# Shanmathi M

Salem, Tamil Nadu | shanmathi.m.work@gamil.com | https://github.com/Shanmathim-work | www.linkedin.com/in/shanmathi-madheswaran-4aab12384 | |

## SUMMARY

Computer Science and Technology undergraduate (Honours Program) with an 8.4 CGPA and hands-on experience in Artificial Intelligence, Machine Learning, Deep Learning, Data Analytics, and Frontend Development. Completed industry internships in UI/UX and AI & Machine Learning and developed real-world AI-based applications. Passionate about building innovative and user-centric software solutions using emerging technologies.

## EDUCATION

**Vivekanandha College of Engineering for Women | Anna University**
*B.E. – Computer Science and Technology (Honours Program)* *Expected Graduation: 2027 | CGPA: 8.6/10*

**Government Girls Higher Secondary School**
*Class XII* *State Board | 2023 | 79%*

**St. Thomas Matriculation School**
*Class X* *State Board | 2021 | Passed*

## EXPERIENCE

**UI/UX Intern** [15days]
*[Odugaa Tech]*
- Designed wireframes and interactive prototypes using Figma.
- Created user-centric interfaces for web and mobile applications.

**AI & Machine Learning Intern** [10days]
*[CubeAI Solution tech]*
- Worked on real-world AI and Machine Learning projects using Python.
- Gained experience in data preprocessing and model development.

## PROJECTS

**AuditReadiness Agent & RAG-Based AI Agent**
- Developed an AI agent for intelligent document retrieval and response generation.
- Implemented using Python and Generative AI concepts.

**BeyondSight – Diagram Explanation System**
- Developed an AI system to explain diagrams through text and voice output.
- Utilized AI and computer vision techniques.

**Homework Monitoring AI**
- Developed an AI-based platform for homework assignment and submission tracking.
- Enabled document uploads in PDF, Word, and PowerPoint formats.

**Audio Emotion Detection System**
- Developed a machine learning system to detect emotions from speech.
- Implemented using Python and MFCC feature extraction.

## TECHNICAL SKILLS

**Programming Languages:** Python, C, Java Script
**Core Subject:** Database Management System (DBMS)
**Web Technologies:** HTML, CSS
**Technologies & Tools:** Artificial Intelligence, Machine Learning, Generative AI, RAG, Data Science, Streamlit, Power BI,GitHub, VS Code, Figma, Jupyter Notebook
**Databases:** MySQL, MongoDB
**Libraries & Frameworks:** Pandas, NumPy, Scikit-learn, React.

## CERTIFICATIONS

NPTEL – Affective Computing (12 Weeks), 2026 | Score: 79% Programming for Everybody (Getting Started with Python) –
Coursera, 2024 Introduction to Artificial Intelligence (AI) – Coursera, 2024
MongoDB Basics for Students – MongoDB, 2025 Fundamentals of Database: What is SQL? – Simplilearn, 2025
Young Professional Course – TCS iON Career Edge
GenAI Powered Data Analytics Job Simulation – TATA 2026

## HONOURS PROGRAM

Pursuing the Honours Program from the 5th semester with six additional subjects beyond the regular curriculum.

## ACHIEVEMENTS

Completed industry internships in UI/UX and AI & Machine Learning.

Developed real-world projects in Generative AI, Machine Learning, and Data Analytics.

Secured 79% in the NPTEL course on Affective Computing.

Pursuing an Honours Program with additional advanced coursework.

Won 1st Prize in a Full-Stack Development Hackathon.

## AREAS OF INTEREST

Artificial Intelligence | Deep Learning | Frontend Development | Machine Learning | Data Analytics | UI/UX Design
