PROJECTS

Code To Flow | PYFLOW Visit
Python | Graphviz | Streamlit
- Developed a Python-based flowchart generator that visualizes the control flow of Python scripts
- Implemented support for key programming constructs, including if-else, for, while, print, input, and assignments.

WATER POTABILITY PREDICTION | MACHINE LEARNING
Python | Pandas | Scikit-learn
- Developed a Machine Learning model to predict water potability based on physicochemical properties.
- Implemented classification algorithms like Logistic Regression, Random Forest for accurate predictions.

BLOGWRITER | FULLSTACK
MongoDB | Express.js | React | Node.js
- Developed a MERN stack-based Blog Writer website for managing blog content.
- Enabled users to create, read, update, and delete blogs efficiently while ensuring a seamless content management system.

EXPERIENCE

INTERNSHIPS

1. **Rinex**
   - Data Analysis , Data visualization and Model Building
   - May 2023-July 2023
2. **Centillion Labs**
   - Student Intern
   - Dec 2023 - Jan 2024

INDUSTRY TRAINING

1. **Intel Unnati Industrial Training**
   - Explored the application of LLMs to build a tool for solving mathematical problems.
   - May 2024 - July 2024

CERTIFICATIONS

Responsible and Safe AI Systems Link
- Completed through **NPTEL** and scored **73%**

MongoDB Associate Developer Link
- Completed **Node.js** Developer Path in MongoDB
