S. THARUNKUMAR

Tiruchengode, Namakkal(D.T) - 637211 | stharunkumar321@gmail.com | +91 6383617241

OBJECTIVE

Dynamic professional seeking a position in quality/ product development with a reputable manufacturing industry where I can apply my professional skills to the organisation's growth as well as my own.

WORK EXPERIENCE

Organisation : Paranthaman Exporters
Year of Experience : 3 years
Position : Quality Control Engineer

ROLES & RESPONSIBILITIES

Inward Inspection

- Perform incoming material inspection for drilling rig components, structural materials, fabricated parts, bought-out items, and mechanical components according to purchase orders, drawings, and specifications.
- Verify supplier documents including MTCs, Test Certificates, Inspection Reports, Calibration Certificates, and material traceability records.
- Conduct dimensional inspection using Vernier Caliper, Micrometer, Height Gauge, Dial Gauge, Measuring Tape, and other precision instruments.
- Inspect raw materials, machined components, pressure-containing parts, fasteners, hydraulic/pneumatic components, and electrical items.
- Identify and segregate rejected/non-conforming materials and raise Non-Conformance Reports (NCRs).
- Maintain incoming inspection reports, material records, and traceability documentation.

Pre-Dispatch Inspection (PDI)

- Perform final inspection of completed drilling rigs, assemblies, and components before dispatch.
- Verify overall dimensions, alignment, workmanship, welding quality, component identification, and assembly condition.
- Check mechanical, hydraulic, pneumatic, electrical, and safety-related components as applicable.
- Verify product quantity, marking, identification, documentation, and packaging.
- Ensure the finished rig/components meet customer specifications, approved drawings, and applicable quality standards.
- Prepare PDI reports, final inspection documentation, and quality dossiers.

EDUCATIONAL QUALIFICATIONS

Course	Institution	Year of Completion	Percentage %
Bachelor of Engineering (Mechanical)	Muthayammal College of Engineering, Rasipuram.	2022	83.2
H.S.C	Govt. Boys. Hr. Sec. School, Tiruchengode.	2018	82.5
S.S.L.C	St. Antony's Hr. Sec. School, Tiruchengode.	2016	85.4

ACADEMIC PROJECT

Foot Step Power Generation

- Designed a system to convert mechanical energy from footsteps into electrical energy.
- Utilised a flywheel with a chain drive to regulate fluctuations and coupled a dynamo to convert reciprocating motion into rotational and electrical energy.

SKILLS

- Software: MS Office, MS PowerPoint, MS Excel .
- Soft Skills: Time Management, Team Collaboration, Problem Solving

DECLARATION

I hereby declare that the above information is true and correct to the best of my knowledge.
