THEERTHANA V

Aspiring Software Engineer

Namakkal, Tamil Nadu, India | +91 8526677508 | theerthanavenkatachalam8125@gmail.com
linkedin.com/in/theerthana-venkatachalam-a44a82385 | github.com/Theerthana254

PROFESSIONAL SUMMARY

Aspiring Software Engineer with internship experience in Java and Python development. Skilled in building REST APIs, working with databases, and writing clean, testable code. Comfortable collaborating in Agile teams and quick to learn new tools and technologies.

TECHNICAL SKILLS

Languages: Java, Python

Frameworks & Technologies: Spring Boot, React.js, REST APIs

Database: PostgreSQL

Tools: Git & GitHub, Eclipse IDE, VS Code

Core Concepts: Object-Oriented Programming, Data Structures

EDUCATION

B.E., Electronics & Communication Engineering *2023 – 2027*

AVS Engineering College, Salem | CGPA: 8.3 (up to Semester V)

Higher Secondary Certificate (HSC) *2022 – 2023*

Government Girls Higher Secondary School, Vennadhur, Namakkal

INTERNSHIP EXPERIENCE

Software Development Intern — Infosys Springboard Internship 7.0 *Jun 2026 – Aug 2026*

Java Full Stack Development

- Built a Shipment Tracking & Delivery Visibility Platform with separate Admin and Customer dashboards.
- Designed RESTful APIs in Spring Boot and integrated PostgreSQL for shipment, tracking, and analytics data.
- Collaborated in an Agile team using Git and GitHub throughout the development cycle.

Python Developer Intern — Codec Technologies Ltd *Jun 2026 – Jul 2026*

- Developed and tested Python-based modules and scripts, applying object-oriented programming principles.
- Debugged and optimized code to improve functionality and reliability of assigned tasks.
- Collaborated with mentors and team members to deliver assigned work within given timelines.

Software Developer Intern — California Software Company Limited (Calsoft), Chennai *23 Jan – 8 Feb 2025*

- Contributed to coding, debugging, and application performance optimization using Spring Boot, Java, and Angular.
- Collaborated with the development team to improve software quality and delivery processes.

PROJECTS

Shipment Tracking & Delivery Visibility Platform

Spring Boot | React.js | PostgreSQL | REST APIs | GitHub: github.com/Theerthana254

- Full-stack platform with Admin and Customer dashboards, built during the Infosys Springboard internship.
- Implemented shipment management, live tracking, and a CRUD-backed analytics dashboard.
- Designed and developed RESTful APIs in Spring Boot to handle shipment creation, status updates, and tracking events.
- Integrated PostgreSQL for persistent, relational storage of shipment, customer, and analytics data.
- Built responsive React.js components for both dashboards, ensuring clear, real-time data visualization.

AI-Powered Offline Language Translator

Python | Whisper AI | Hugging Face Transformers | Speech Recognition | Text-to-Speech | GitHub: github.com/Theerthana254/offline-voice-translator

- Built an offline desktop application converting speech to text, translating it, and generating spoken output using Python-based ML libraries, with zero internet dependency.
- Integrated Whisper AI for speech-to-text conversion and Hugging Face Transformers for multilingual translation.
- Implemented text-to-speech synthesis to generate natural, spoken output from translated text.
- Designed a lightweight, offline-first architecture to eliminate dependency on internet connectivity or cloud-based APIs.

CERTIFICATIONS

Programming in Java | Programming in Python

Embedded Systems Fundamentals | Internet of Things (IoT) Fundamentals

Embedded Systems & IoT Training — Tessolve Semiconductor Pvt. Ltd.
