EDUCATION

KONGUNADU COLLEGE OF ENGINEERING AND TECHNOLOGY

B.E. Electronics and Communication Engineering

CGPA - 7.5 (Upto 6 th semester)

KALAIMAGAL MATRIC HIGHER SECONDARY SCHOOL

HSC

Percentage - 76 %

KALAIMAGAL MATRIC HIGHER SECONDARY SCHOOL

SSLC

Percentage - 100%

SKILLS

Technical Skills

- Embedded Systems
- Internet of Things (IoT)

Soft Skills

- Problem Solving
- Teamwork
- Quick Learning

CERTIFICATIONS

- Java programming- Yellowmatic
- NPTEL - Introduction to Internet of things
- NPTEL - Introduction to Industry 4.0.

AREA OF INTEREST

- Embedded Systems
- Internet of Things
- Electronics & Circuit Design

LANGUAGE

- Tamil
- English

CAREER OBJECTIVE

Motivated ECE Graduate with knowledge of Embedded Systems, Electronics, Microcontrollers, Sensors, and IoT. Eager to learn new technologies, improve my technical skills, and contribute to hardware development projects. Looking for an opportunity to grow professionally and support the organization's success.

PROJECTS

IoT enabled smart baby cradle for real time infant health and safety monitoring

- Developed an IoT-based infant monitoring system for real-time tracking of movement, environmental conditions, and safety parameters.
- Integrated sensors and alert mechanisms to detect abnormal conditions and provide instant notifications to caregivers.
- Enhanced child safety and system reliability through continuous monitoring using embedded systems and IoT technologies.
- Tools Used: Arduino & ESP32, Blynk, DHT11 Sensor, PIR Sensor, Embedded C, Wi-Fi Communication, Alert & Notification System.

Smart Waste-to-Energy & E-Waste Safety System using IoT

- Developed an IoT-based Smart Waste-to-Energy and E-Waste Safety System for automated household waste management.
- Implemented sensor-based waste segregation and biogas production monitoring for efficient waste utilization.
- Enabled real-time monitoring of gas levels, temperature, and air quality to improve safety and environmental sustainability.
- Tools Used: Arduino & ESP32, Embedded C,MQ-2 Gas Sensor, Temperature Sensor, Air Quality Sensor, Inductive Proximity Sensor, Blynk.

INTERNSHIP

LITZ TECH, Coimbatore.

- Completed Embedded Systems Training at LITZ TECH.
- Gained hands-on experience in Embedded C, Microcontroller Programming, Hardware Interfacing, and Debugging.
- Developed embedded applications using real-time concepts.

HACKATHON PARTICIPATION

Niral Thiruvizha 3.0:

Smart Waste-to-Energy & E-Waste Safety System using IoT

HACKINDIA 24-HOUR HACKATHON:

Ticketless Passenger Detection System For Smart Railways
