# RUFUSVISHWA A S

Vdass2945@gamil.com | +91-9944196718 |Salem

## Profile Summary

---

- Motivated and detail-oriented Agricultural Engineering student with a strong foundation in programming , IoT, and automation systems.
- Proficient in modern technologies including Java, Python, C, and web development with HTML and CSS.
- Strong grasp of Data Structures and Algorithms with the ability to solve problems effectively.

## Area of Expertise

---

- Programming Languages: Java(advanced), My SQL, Mongodb, Python, C
- Web Technologies :HTML,CSS
- Engineering Tools: AutoCAD2D,CATIA3D

## Projects

---

### Simple ATM Interface (using Java) :

This program is a console-based of an ATM. Start with PIN verification, display ATM menu in loop, deposit and withdrawal operations

### Hospital Emergency Queue System (using JavaScript) :

Developed a Hospital Emergency Queue System that prioritizes patients based on triage severity to ensure timely medical attention. The system streamlines registration, queue management, room allocation, improving overall emergency department workflow.

### Customer service System (Using Queue) :

The Customer Service System uses a queue to manage customers in a first-come, first-served order, ensuring fairness and smooth flow This project demonstrates how queues efficiently organize and manage real-world service operations.

## Internships

---

- Amogam Agro Agency – 15Days
- Amman Sago Factory – 7 Days

## Education

---

- **B.Tech – Agricultural Engineering ,** AVS college of technology, Salem (2021 – 2025)
  CGPA : 81%
- **HSC – Jothi Matriculation Higher Secondary School , Salem**
  ( 2020 –2021)
  percentage:80%
- **SSLC –Jothi Matriculation Higher Secondary School, Salem**
  (2018–2019)
  Percentage:75%

## Certifications

---

- Certified in Core Java Programming
- Certified in Python Programming

## Achievements

---

Secured 2nd prize in intra-college project expo for 'Digital Farming with MCU Node and Wi-Fi'.

## Languages Known

---

- English
- Tamil
