Yoshika Ramar

Full Stack Developer

yoshikajune12@gmail.com LinkedIn github.com/yoshika-xr 9080395931

PROFESSIONAL SUMMARY

Final-year Information Technology student skilled in Java, React, Node.js, Express.js, and PostgreSQL, with hands-on experience building scalable full-stack web applications. Strong foundation in front-end design, backend development, and database management.

EDUCATION

B.Tech - Information Technology **September 2023 – May 2027**
Mahendra College of Engineering
GPA: 8.33 (till 5th semester)

12th Standard - Biology **June 2019 – March 2021**
Sri Barani Vidhyalaya HR Sec School, Cuddalore
Percentage: 77.5%

PROJECTS

CGPA Calculator

Tech Stack: *React, Vite, Node.js, Express.js*

- Developed a web-based CGPA calculator using **React** and **Express.js** to simplify academic performance calculation.
- Implemented **dynamic subject addition/removal** with subject name, code, grade, and credit inputs.
- Integrated **grade-point and credit-based CGPA calculation** with instant result generation.
- Built **semester selection and a responsive user interface** for an easy student experience.
- Connected the React frontend with an **Express.js REST API** for calculation processing.

Book Search / Wishlist Website

Tech Stack: *Node.js, Express.js, EJS, PostgreSQL, Axios*

- Built a web app to search books via the **Open Library API** and manage a personal wishlist using **Node.js**, **Express.js** and **EJS**.
- Integrated **PostgreSQL** to persist wishlist entries along with user ratings and personalized recommendations.
- Designed dynamic **EJS** templates for search results and wishlist pages, delivering a smooth browsing experience.
- Implemented **Axios-based API integration** to fetch and display book data dynamically from the Open Library API.

Blog Creator

Tech Stack: *Node.js, Express.js, EJS, Body-Parser*

- Developed a blog management system enabling users to **create, read, update, and delete** blog posts using **Node.js** and **Express.js**.
- Implemented **EJS** templating for dynamic page rendering and an interactive user interface.
- Structured modular **Express.js** routes for clean code organization and scalability.
- Utilized in-memory data storage to manage blog content during the prototyping phase.

TECHNICAL SKILLS

- **Frontend:** React.js, HTML, CSS, JavaScript
- **Backend:** Node.js, Express.js
- **Databases:** PostgreSQL, MySQL
- **Programming Languages:** Java, Python
- **Tools:** VS Code, Git, GitHub

CERTIFICATIONS

- **Advanced Diploma in Python Programming (ADPP)** – CSC
- **The Complete Full-Stack Web Development Bootcamp** – Angela Yu
- **Web Development Wizardry: HTML and CSS for Beginners** – Zaid Smadi
