# GOWTHAM KARTHIKEYAN

9489611596 DHARMAPURI linkedin gowthamk2162004@gmail.com

## PROFILE

Motivated B.E. Mechatronics Engineering student with hands-on experience in Amazon Web Services (AWS) through academic cloud projects. Skilled in deploying and managing cloud infrastructure using EC2, VPC, IAM, Elastic Beanstalk, Auto Scaling, Elastic Load Balancer (ELB), Amazon S3, CloudWatch, and EBS. Strong engineering foundation in automation, problem-solving, and system design, with a growing interest in Cloud Computing and DevOps. Seeking an entry-level Cloud Engineer, AWS Cloud Support Associate, or DevOps Engineer role where I can apply both engineering knowledge and cloud technologies.

## SKILLS

**Cloud Computing**
Amazon Web Services (AWS)

**AWS Core Skills**
Amazon EC2, IAM, VPC, Elastic Beanstalk, Elastic Load Balancer (ELB), Auto Scaling, Amazon S3, CloudWatch, Amazon EBS, Security Groups, Launch Templates

**Operating Systems**
Linux, Windows

**Networking**
Public & Private Subnets, Route Tables, Internet Gateway, SSH, RDP , VPC Networking

**Tools**
MobaXterm, MS Excel, AutoCad

**Programming**
Python(Basic), SQL(Basic)

**Core Engineering**
Hydraulics, PLC(Basic

## EDUCATION

**B.E(Hons) – Mechatronics Engineering .**
Hindusthan College of Engineering And Technology
2022 – 2026 | Coimbatore
CGPA- 8.63

**Higher Secondary Certificate (HSC)**
Sri Vijay Vidyalaya Matric Higher Secondary School, Dharmapuri
**Score:** 84%

## LANGUAGES

English | Tamil

## Projects

**AWS Cloud Infrastructure Deployment (Major Project )**
**Technologies:** AWS IAM, Amazon EC2, Amazon VPC, Elastic Beanstalk, Elastic Load Balancer (ELB), Auto Scaling, Amazon CloudWatch, Amazon S3

- Designed and deployed a scalable AWS cloud infrastructure.
- Configured a custom Amazon VPC with public and private subnets, route tables, internet gateway, and security groups to deploy and secure EC2 instances..
- Implemented Elastic Load Balancer, Auto Scaling, and CloudWatch monitoring.
- Integrated Amazon S3 and deployed an application using Elastic Beanstalk.

**AWS EC2 Administration & Storage Management (Minor Project)**
**Technologies**: EC2, EBS, Security Groups, Launch Templates, Linux, Windows

- Launched and managed Linux and Windows EC2 instances.
- Configured SSH, RDP, HTTP/HTTPS access and Security Groups.
- Created Launch Templates and managed Amazon EBS volumes.

**Autonomous Biometric Shopping Cart with AI-Based Customer Tracking**

- Developed a smart shopping cart using AI and sensor technologies.
- Integrated RFID/Barcode scanning for automatic billing.
- Enabled secure digital payments using UPI/Card.
- Improved customer shopping experience through automation.

## INTERNSHIPS

**Sharp Hydro Products – Manufacturing Intern**

- Learned hydraulic systems, pump manufacturing, and quality inspection.
- Gained exposure to industrial production processes and assembly line operations.
- Observed quality control procedures and ISO-based manufacturing standards.

**Amudha Aspetic Food Products** – Maintenance Intern

- Assisted in machinery maintenance.
- Gained exposure to hydraulic and pneumatic systems.

## CERTIFICATIONS

- AWS Cloud Practitioner
- NPTEL – Product and Design Manufacturing
- PLC & SCADA Training
- Winner – IIC Mentoring Event
