PROFESSIONAL OBJECTIVE

Aspiring Data Analyst with skills in Python, SQL, Excel, Power BI, and Tableau. Skilled in analyzing and visualizing data to find useful trends and insights. Eager to use data and problem-solving skills to support smart business decisions.

Notable Projects & Impacts:

- Developed an interactive HR Analytics Dashboard to analyze employee attrition, workforce performance, and key HR trends using Power BI, with KPIs, filters, and data visualizations for data-driven decision-making.
- Designed an Enterprise Data Warehouse & Reporting Dashboard using Python, MySQL, SQL, and Power BI, integrating sales data for centralized reporting and analyzing sales, profit, regional performance, and product trends.

Internship:

- Worked as a Data Analytics Intern at Cognifyz Technologies, analyzing datasets using Python, SQL, and Excel to identify insights and support data-driven decision-making.
- Created interactive Power BI dashboards and performed data cleaning and exploratory data analysis (EDA) to improve data quality and visualization.
- Completed the Deloitte Data Analytics Job Simulation, performing practical data analysis and forensic technology tasks based on real-world business scenarios.
- Analyzed business scenarios to derive actionable insights and strengthen data-driven decision-making and problem-solving skills.

Achievements :

- Team Lead – Edunet Foundation (Green Skills & AI Program).
- Team Lead – MiniProject.

EDUCATION

Muthayammal Engineering College, **B.E – Artificial Intelligence and Machine Learning** (CGPA:7.30/10) **2023-2027**

NLC Higher Secondary School, Neyveli, **HSC** (74.64%) **2022-2023**

Sacred Heart Matriculation Higher Secondary School, Neyveli, **SSLC** (100%) **2020-2021**

PROGRAMMING SKILLS

Languages : Python.

Business Intelligence Tools: PoweBI, Tablueau, Microsoft Excel.

Data Structures & Algorithm : Arrays, Strings, Linked Lists, Stack, Queue, Trees, Searching,Graph.

Python Libraries : Pandas, Numpy, Matplotlib, Seaborn, Steamlit.

Database : SQL, MySQL, MongoDB.

Tools & Technologies : Git, GitHub, JupyterNotebook, google Colab, VS Code.
