SUMMARY

BCA Graduate (CGPA 8.51) with a strong foundation in Java, SQL, and Gen AI concepts. Developed an AI-powered mental wellness chatbot using Retrieval-Augmented Generation (RAG). Eager to learn new technologies, build reliable software solutions, and contribute effectively in a collaborative development environment.

SKILLS

- Programming Languages : Java | SQL
- Web Technologies : HTML | CSS
- Artificial Intelligence : Generative AI | Prompt Engineering

SOFT SKILLS

- Communication
- Quick Learner
- Time Management

PROJECT

- Designed and developed a web-based AI mental wellness chatbot to provide conversational support for common mental wellness-related queries.
- Identified and resolved response quality issues by migrating from a rule-based system to a Retrieval-Augmented Generation (RAG) pipeline, enabling accurate context-based answers.
- Implemented semantic retrieval using a FAISS vector database to fetch relevant coping strategies, reducing irrelevant responses and improving answer consistency.
- Tech Stack: Python, Flask, LangChain, Google Gemini API, FAISS, HTML, CSS, JavaScript

EDUCATION

Bachelor Of Computer Applications (BCA) **July 2023 - Apr 2026**

Sona College Of Arts And Science, Salem

CGPA : 8.510

HSC **Jun 2022 - Apr 2023**

Notre Dame Of Holy Cross School, Salem

Percentage : 83.8

CERTIFICATES

- Claude AI in 90 Minutes Productivity Course: Build Your AI Work Ass istant — GUVI HCL
- Introduction to Generative AI – Learning Path — Google Cloud / Coursera
- Prompt Engineering — LinkedIn Learning
- Cybersecurity Fundamentals — IBM Skills Build
- Soft Skills Training — Infosys BPM CSR Initiative

LANGUAGES : English , Tamil
