MAANISHA B

Aspiring Data Analyst | Final Year B.E. ECE

Karur, Tamil Nadu | 9790122609 | maanishabaskar@gmail.com | linkedin.com/in/maanishabaskar01

PROFESSIONAL SUMMARY

Final-year Electronics and Communication Engineering student with practical, hands-on experience in Excel, SQL, SSMS, Power BI, Tableau, and Python, developed through academic projects and internships spanning Data Analytics and Embedded C. Skilled at cleaning messy datasets, building interactive dashboards, writing SQL queries and translating raw data into clear business insights. Comfortable working across the full analytics workflow — from data collection and cleaning to visualization and reporting. Combines an engineering foundation in electronics and IoT with a growing specialization in data analysis, and is actively seeking a Data Analyst Internship or Entry-Level role where analytical thinking and dashboard development skills can add measurable value.

EDUCATION

B.E. Electronics and Communication Engineering (ECE) — Vivekanandha College of Engineering for Women (Autonomous) *Expected 2027*
Tiruchengode, Namakkal | CGPA: 7.5

Higher Secondary Education (12th) — Kongu Higher Secondary School
Vennaimalai, Karur | Percentage: 70%

TECHNICAL SKILLS

Programming	C, Python, Embedded C
Data Analytics	Excel, SQL, SSMS, Power BI, Tableau, Data Cleaning, Data Visualization, Dashboard Development
Embedded Systems & IoT	Arduino, ESP32, Microcontrollers, IoT, Sensors, Actuators, Basic Electronic Circuits
Tools / Software	Arduino IDE, MS Excel, ThingSpeak, Android Studio (Java/Kotlin)

EXPERIENCE

Data Analytics Intern — Cybernaut EdTech *1 Month*
- Worked hands-on with Excel, SQL, SSMS, Power BI and Tableau on real-world style datasets.
- Cleaned and structured raw data to prepare it for analysis and reporting.
- Built interactive dashboards and generated summary reports to support data-driven decisions.

Embedded C Intern — Embuzz Technologies Pvt Ltd, Coimbatore, Tamil Nadu *Jan 2025 – Feb 2025*
- Gained hands-on experience in Embedded C programming and microcontroller fundamentals.
- Practiced debugging and testing embedded logic on microcontroller-based hardware setups.

KEY PROJECTS

HR HC Analysis Dashboard (Power BI) *Jun 2026*
- Built an interactive HR headcount dashboard featuring KPIs, slicers and drill-down visual reports.
- Enabled quick filtering by department, tenure and role to surface workforce trends at a glance.

Excel & SQL Data Analysis *Jun 2026*
- Performed data cleaning and transformation on raw datasets using Excel functions and pivot tables.
- Wrote SQL queries to extract, filter and aggregate data for reporting and business insights.

Real-Time Public Transport Tracking for Smart Cities *Jul 2026*
- Designed a real-time tracking concept for public transport as part of a smart cities initiative.
- Outlined a sensor-and-dashboard architecture to visualize live vehicle location and route data.

Counter & Tap Game (Interactive Mobile App) *Nov 2025*
- Designed and built an interactive counter application with real-time state tracking for Count and Score.
- Implemented dynamic UI logic: background color changes across value ranges (Green 0–3, Yellow 4–7, Red 8–10) with Minimum/Maximum alerts.
- Applied UI/UX and conditional-logic concepts reflecting a dashboard-style, data-driven interface design.

Smart ICU Monitoring System *Jun – Jul 2025*
- Developed an embedded healthcare monitoring solution to track patient vitals in real time.
- Integrated sensors with a microcontroller to trigger alerts on abnormal readings.

Autonomous Laser-Based Intrusion Detection System *Jan – May 2025*
- Built a sensor-based embedded security project using a laser-photodiode trip mechanism.
- Programmed alert logic to detect and signal unauthorized intrusion in real time.

CERTIFICATIONS & ACTIVITIES

- Data Analytics Training – Cybernaut EdTech
- Presentation – Hindustan College of Engineering
- Spoken Tutorial Certificate – Python, Computer Training, HTML, Arduino (2024–2026)
- Bajaj Manufacturing System – Bajaj Auto Ltd (2026)
- IBM SkillsBuild – Generative AI Related Course (2026)
- IEEE Member
- Technical Paper Presentation
- Technical Workshops & Athletics

EXTRACURRICULARS

- Involved in scheduling, communication and logistics, demonstrating leadership, Tamil Speech, teamwork and organizational skills.

SOFT SKILLS

Analytical Thinking | Problem Solving | Communication | Teamwork | Leadership | Quick Learner
