Professional Summary

Web Developer with a strong foundation in **HTML, CSS, JavaScript, and React.js**. Experienced in building **responsive and user-friendly web applications** with API integration. Familiar with **Java, Spring Boot, SQL, Git**, and backend development. Passionate about learning new technologies and building **practical, scalable web solutions**.

Education

Mahendra College of Engineering, Tamil Nadu — *2023 – 2027*
B.Tech in Information Technology — **CGPA: 8.0 / 10**

Government Higher Secondary School, Ayothiyapattinam, Salem — *2021 – 2023*
Higher Secondary – Computer Science — **74%**

Technical Skills

- **Programming:** Java
- **Frontend:** React.js, HTML5, CSS3 , Javascript
- **Backend:** Node.js, Express.js, Spring boot , JPA/Hibernate
- **Databases:** PostgreSQL, MongoDB, SQL
- **Authentication & APIs:** Firebase Authentication, Razorpay API
- **Tools & Deployment:** Git, GitHub, VS Code, Vercel, Render, Eclipse

Projects

Task Flow App

View Project

Tech Stack: *React.js, Node.js, Express.js, PostgreSQL, Neon, Firebase Authentication, REST APIs, Vercel, Render*

- Developed a **full-stack task management application** enabling authenticated users to create, update, track, and delete tasks through a responsive web interface.
- Implemented **Firebase Authentication** for secure login and protected application workflows.
- Designed **RESTful APIs using Node.js and Express.js** for task creation, retrieval, modification, and deletion.
- Integrated **PostgreSQL with Neon** for persistent storage and deployed the application using **Vercel and Render**.

E-Book Website

View Project

Tech Stack: *React.js, Node.js, Express.js, MongoDB, Firebase Authentication, Razorpay API*

- Built a **full-stack e-book platform** with dynamic book listings, user authentication, and an interactive browsing interface.
- Developed reusable **React.js components** and integrated frontend functionality with backend services through **REST APIs**.
- Integrated **MongoDB** for application data management and implemented **Firebase Authentication** for secure user access.
- Integrated the **Razorpay API** to implement an online payment workflow connecting frontend, backend, and payment services.

Bakery Billing System

View Project

Tech Stack: *React.js, Spring Boot, Java, PostgreSQL, REST APIs, JPA/Hibernate*

- Developed a **full-stack bakery billing application** for managing products, billing operations, and business data through a responsive UI.
- Built backend services using **Spring Boot and Java** and exposed RESTful APIs for frontend-backend communication.
- Integrated **PostgreSQL with JPA/Hibernate** for structured data persistence and database operations.

Internship & Certifications

- **Full Stack Development Internship** – Odugaa Tech Pvt. Ltd.
- **HTML & CSS Fundamentals**
- **JavaScript for Beginners**
