OBJECTIVE

Motivated Final year Electrical and Electronics Engineering student seeking opportunities to apply technical skills, and contribute to innovative projects while gaining practical experience.

EDUCATION

Bachelor of Engineering (Electrical and Electronics Engineering)
KSR College of Engineering, Tiruchengode - CGPA:8.08 2023-2027

Higher Secondary Education
Christ The King Matric Hr.Sec School - 71% 2021-2023

Secondary School Education
AJC English School CBSE - 76% 2020-2021

PROJECTS

IoT-Based Water Level Monitoring System

- Monitors the water level in tanks using sensors and a microcontroller.
- Sends real-time water level data to a mobile app or cloud through the Internet.
- Developed an IoT-based water level monitoring system using ESP32, ultrasonic sensors, and cloud connectivity for real-time water level tracking and alerts.

INTERNSHIP EXPERIENCE

Embedded System Development — SAN Technovation, Perundurai July 2024

- Designed and developed embedded applications using C/C++ for microcontroller-based systems.
- Interfaced sensors and peripherals using UART, SPI, and I2C communication protocols.
- Tested and optimized firmware for reliable real-time performance.

Embedded System — Natrinai Technologies Pvt . Ltd. Chennai June 2025

- Worked with microcontrollers to control hardware peripherals for embedded applications.
- Designed, tested and debugged firmware using datasheets and circuit diagrams.
- Improved system performance through memory and power optimization.

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java

Core Skills: Data Structures and Algorithms (DSA), Embedded Systems, Digital Electronics, Electronics Fundamentals

Tools & Technologies: VS Code, Arduino IDE, Multisim

CERTIFICATIONS

- NPTEL – Internet of Things (IoT) - Elite
- Eduskill – AI/ML Virtual Internship
- Value Added Course – PCB Design and Fabrication
- TANCAM's HACKATHON - Water and Agriculture
- TANCAM's HACKATHON - Transportation and Mobility
- TANCAM's HACKATHON - Inclusive Digital Transformation
