EDUCATION:

VSB Engineering College, Karur, India.

B.Tech., Computer Science and Business Systems. (MAY 2026)

SUMMARY:

- Technical Professional specializing in Python development, database management, and Data Science. Demonstrates strong end-to-end application development skills, precise data cleaning, and Power BI visualization capabilities. Combines creative problem-solving with seamless team collaboration to build scalable software and data-driven solutions.

SKILLS:

- **Data Visualization & BI:** Power BI (DAX, Data Modeling, Power Query), MS Excel (Pivot Tables, LOOKUP Function).
- **Programming & Databases:** Python (Problem Solving, Pandas), SQL, Java (basics).
- **Web Development:** HTML, CSS, Fast API, Streamlit.

PROJECTS:

Expense Management Analytical Application – Full Stack [Streamlit | Fast API | MySQL]

- Developed a full-stack application by using a RESTful API with FastAPI to handle CRUD (Create, Read, Update, Delete) operations and integrated it with a MySQL database for persistent expense data storage.

Business 360 – Brick & mortar and ecommerce [Power BI | MySQL | MS Excel]

- Conducted a comprehensive analysis of sales & finance KPIs and optimized the report using DAX Studio to improve performance by 5%.

Atiq Grands – Restaurant Analysis [Pandas | Matplotlib | Jupyter Notebook]

- Cleaned and visualized CSV data file to increase performance based on stats.
- Removed outliers using 3 sigma rules, improving retention rate and data quality.

CERTIFICATIONS:

- Pythonfor Data Science Certification – **Nptel.**
- Power BI Data Analytics, Adv Excel, Tableau, MySQL – **Codebasics Bootcamp.**
- Completed 5+ courses in Data Analysis and Visualization **– Infosys Springboard.**

ACHIEVEMENTS:

- Python Gold badge – **Hackerrank.**
- Solved 350+ problems in Python and 25+ problems in SQL on LeetCode.

ACTIVITIES:

- Presented to an audience of over 100 at college-level hackathons in September 2024 and 2025.
- Attended virtual workshops using AI tools for Data and Analytics.
