NAVEENKUMAR L

Frontend Developer | React.js | MERN Stack

Tiruchengode, Tamil Nadu, India | 6382709447 | naveek1301@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Frontend Developer with 1 year of professional experience building and maintaining responsive, user-friendly web applications using React.js, JavaScript (ES6+), HTML5, and CSS3. Skilled at developing reusable UI components, implementing designs, integrating APIs, and debugging issues to ensure applications perform well across browsers and devices.

TECHNICAL SKILLS

Frontend: React.js, Next.js (Basics), Vite, React Router, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST API Design, JWT Authentication, bcryptjs

Database: MongoDB, Mongoose, SQL (Basics)

Tools & Platforms: Git, GitHub, VS Code, NPM, Postman, Vercel, Render

PROFESSIONAL EXPERIENCE

Frontend Developer (Software Web Developer) — IDM Techpark, Erode *May 2025 – May 2026*

- Built and maintained 3+ responsive, user-friendly web applications using React.js, ensuring consistent performance across browsers and devices.
- Developed reusable UI components with HTML5, CSS3, and JavaScript, implementing designs into production-ready interfaces and reducing duplicate code across features.
- Integrated REST APIs end-to-end and debugged issues in production, improving application performance and load responsiveness for end users.
- Collaborated with a cross-functional development team to deliver scalable frontend solutions on schedule.
- Debugged and resolved production UI issues, improving overall application stability and user experience.
- Followed Git/GitHub version-control workflows and industry best practices for code review and deployment.

Frontend Developer Intern (React.js) — IDM Techpark, Erode *Jan 2025 – May 2025*

- Built responsive, user-friendly React.js UI components as part of real-world production frontend projects, implementing designs into functional interfaces.
- Applied component-based architecture and modern frontend workflows under senior developer guidance.
- Debugged issues and partnered with team members to improve application performance and overall UI/UX quality.

PROJECTS

Instagram Clone (MERN Stack) | *React.js, Node.js, Express.js, MongoDB* — Live Demo

- Built a full-stack, user-friendly social media application supporting user authentication, posts, likes/unlikes, and comments.
- Designed and integrated RESTful APIs with Node.js and Express.js backed by a MongoDB database.
- Implemented a responsive, interactive React.js UI, debugging issues to ensure smooth performance across browsers and devices.

ShopEase — Online Shopping (MERN Stack) | *React 18 (Vite), Node.js, Express.js, MongoDB* — Live Demo

- Built a full-stack e-commerce application using React 18 (Vite) with React Router v6 and Context API for auth/cart state management, integrated with a Node.js/Express REST API.
- Implemented secure JWT authentication (Bearer token and httpOnly cookies) with bcryptjs password hashing, backed by an MVC-style Express/Mongoose architecture with centralized error handling.
- Built a custom seeder script to populate sample product data and a demo admin account for development and testing.

Authentication System (MERN Stack) | *React.js, Node.js, Express.js, JWT* — Live Demo

- Implemented secure JWT-based login and registration flows with protected, role-based access control routes.
- Integrated a React frontend with a Node.js/Express backend for end-to-end authentication.

Weather App | *React.js, JavaScript, OpenWeather API, CSS* — Live Demo

- Built a responsive, user-friendly weather app with real-time, city-based search via the OpenWeather API, displaying temperature, humidity, wind speed, and dynamic weather icons.
- Integrated REST APIs using asynchronous JavaScript (fetch/axios) for real-time data updates.

E-Commerce Website (MERN Stack) — Ongoing | *React.js, Node.js, Express.js, MongoDB*

- Developing product listing, cart, and authentication functionality for a full-stack e-commerce platform.
- Implementing separate admin and user dashboards to support role-based workflows.

CERTIFICATIONS

- MERN Stack Developer — IDM Techpark (Jan 2025): Full-stack development with MongoDB, Express.js, React.js, and Node.js.
- Frontend Developer (React.js) — IDM Techpark (Jan–May 2025): Building responsive React.js interfaces and REST API integration.

EDUCATION

- M.Sc. Computer Science — Excel College of Commerce & Science (2024), 72%
- B.Sc. Computer Science — Excel College of Commerce & Science (2022), 81%
- HSC — MDV Higher Secondary School (2019), 61%
- SSLC — MDV Higher Secondary School (2017), 82%

ACHIEVEMENTS

- 1 year of professional experience in React.js; built and deployed 5 MERN Stack apps, 4 live on Vercel/Render.
