OBJECTIVE

Enthusiastic and aspiring Full Stack Developer with a strong foundation in HTML5, CSS3, JavaScript, and Java, including Object-Oriented Programming (OOPs) principles. Passionate about building responsive web applications and eager to contribute to innovative software projects while continuously learning modern technologies.

EDUCATION

Shanmugha College of Engineering and Technology 2023 – 2027
Bachelor of Information Technology | CGPA: 7.55 / 10.0

Govt Higher Secondary School 2021 – 2023
Higher Secondary (12th Grade) | Percentage: 63.4%

WORK EXPERIENCE

Freelance Web Developer Sept 2023 – Present

- Designed and developed responsive websites using HTML, CSS, and JavaScript for small businesses and personal projects.
- Created user-friendly layouts with clean, modern designs tailored to client needs.
- Ensured cross-browser compatibility and mobile responsiveness to improve user experience.
- Collaborated with clients to gather requirements and deliver solutions on time, managing projects independently and gaining hands-on experience in problem-solving, communication, and client interaction.

PROJECTS

Smart Parking Management System

- Developed a MERN-based smart parking system with real-time slot availability, online booking, QR-based entry/exit, secure payments, parking history, and user authentication, improving parking efficiency and management.

Result Portal Aug 2025

- Developed a responsive student result portal using HTML5, CSS3, JavaScript, Node.js, Express.js, and MySQL.
- Implemented secure student login and displayed subject-wise marks, grades, and pass/fail status dynamically.

Sample Projects

- **Portfolio Website** — Designed and developed a personal portfolio site using HTML, CSS, and JavaScript to showcase projects and skills, with responsive design for seamless viewing across devices.
- **Business Landing Page** — Built a modern, mobile-friendly landing page for a local business, improving their online presence with optimized layouts and call-to-action sections.
