HARIHARAN R

📍 Kadayampatti, Salem, Tamil Nadu - 636351 | 📞 +91 6383757737 | ✉️ hariharanr03.ra2023@dgct.ac.in

PROFESSIONAL SUMMARY

Motivated Robotics and Automation Engineering student with expertise in UI/UX design, graphic design, and video editing. Driven to apply creative and technical skills in UI/UX development, branding, and digital media production to deliver innovative, user-centric digital solutions and technology-driven projects.

EDUCATION

Hindusthan College of Technology (HCT)
Bachelor of Engineering (B.E.) in Robotics and Automation

Model School, Kadayampatti
Higher Secondary Certificate (HSC) — 51%

TECHNICAL & CREATIVE SKILLS

Design & UI/UX:	UI/UX Design, Graphic Design, Branding, Creative Storytelling, User Psychology
Multimedia & Motion:	Video Editing, Motion Graphics, Photoshop Editing
CAD & Engineering:	AutoCAD, Robotics Simulation, Sensors Integration
Languages:	Tamil, English, Japanese

PROJECTS

Obstacle Following Robot

- Designed and built an autonomous robot utilizing ultrasonic, IR, and LiDAR sensors to detect boundaries and navigate terrain while maintaining a safe distance.
- Implemented dynamic real-time sensor processing to adjust vehicle movement, making it optimized for mapping, surveillance, inspection, and confined-space exploration.

Design and Fabrication of an AGV with Robotic Material Handling System

- Developed an Arduino Uno-based Automated Guided Vehicle (AGV) tailored for automated waste bag collection across predefined zones using IR sensor arrays.
- Integrated DC motor drivers, relays, and load-monitoring systems to enable automatic return-to-home behavior upon exceeding preset weight limits, streamlining smart waste management.

ACHIEVEMENTS & LEADERSHIP

- **Project Team Leader:** Successfully directed project execution, task allocation, and design workflows for engineering team projects.
- **Co-Curricular Winner:** Secured top recognition in II-Year co-curricular technical competitions.

INTERESTS & SPECIALIZATIONS

- Visual video editing, post-production, and motion graphics design.
- Exploring UI/UX design trends, human-computer interaction, and user behavior psychology.
