EXECUTIVE SUMMARY

CSE graduate with hands-on experience developing applications and REST APIs using React.js, Node.js, Express.js, MongoDB, and PostgreSQL. Experienced in backend development, API integration, database management, and building modular web applications through internships and projects.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, Python, SQL
- **APIs & Backend:** Node.js, Express.js, FastAPI, REST APIs, Prisma
- **Data & Databases:** MongoDB, MySQL, PostgreSQL
- **Frontend:** React.js, HTML, CSS
- **Tools & Cloud:** Git, GitHub, Postman, AWS (Cloud Practitioner)

EXPERIENCE

Software Developer Intern — Nexitence Technology LLP *Sep 2025 – Jan 2026*

- Developed CRM and payroll backend modules using Node.js, JavaScript, Prisma, and PostgreSQL.
- Used Redis and cron jobs for caching and automated recurring backend tasks.
- Built REST APIs with JWT authentication and implemented payment management workflows.

Generative AI Intern — Digitara Technologies *May 2025 – Jul 2025*

- Built data pipelines connecting LLMs to vector databases, handling extraction, embedding, and retrieval stages.
- Developed REST API endpoints to serve pipeline outputs and automated recurring data-processing tasks.
- Debugged and optimized pipeline components for accuracy and latency under senior guidance.

PROJECTS

Grocery Management System – Full Stack Developer https://github.com/Anandesh007/grocery-shop-management

- Built a grocery management system using React.js, Node.js, Express.js, and MongoDB.
- Developed 5+ REST APIs for managing products, billing, customers, transactions, and reports.
- Added role-based access for Admin and Staff to control access to different operations.

Infomate – AI Agent for College – AI/Backend Developer

- Developed Info-Mate, an AI chatbot to answer student and visitor questions about the college.
- Built a RAG pipeline using Qdrant, LLaMa 3.0, and college web data to provide relevant answers through RAG.
- Built FastAPI REST APIs to connect the AI chatbot with the college application.

Immutable Blockchain Framework for Certificate Validation – Smart Contract Developer

- Developed a blockchain-based framework to securely issue and validate digital certificates.
- Implemented smart contracts to store certificate records immutably and prevent unauthorized modifications.
- Enabled quick certificate verification by comparing certificate details with blockchain record using Solidity and Ethereum.

EDUCATION

Kongunadu College of Engineering and Technology, Trichy *2022 – 2026*
B.E., Computer Science and Engineering | CGPA: 8.22 / 10

Amala Matric Higher Secondary School, Musiri, Trichy *2021 – 2022*
HSC – 85%

Government Higher Secondary School, Balasamudram, Trichy *2019 – 2020*
SSLC – 85.6%

CERTIFICATIONS

- AWS Cloud Practitioner
- Data Analytics with Python – NPTEL

ACHIEVEMENTS

- Secured 2nd Prize – Project Presentation (Selvam College of Engineering) and Rapid Quiz (Bannari Amman College of Engineering).
- Organized and coordinated a college hackathon, managing participants, events, and technical activities.
- Presented a paper on “Robotic Process Automation” at AVS College of Technology.
