Objective

- Motivated ECE graduate passionate about PCB design and electronics Looking for a challenging role where I can enhance my skills and contribute to the success of the organization.

Skills

- Pcb design
- C Programming

Certifications

- VAC in Core Java Programming-Yellowmatics
- VAC in Embeddedsystem - Taras system and solutions
- NPTEL-Introduction to Industry 4.0 & IoT

Languages

- Tamil
- English

Internship

Web design e-soft-IT Solutions

- Web Design is the process of creating and designing websites that are visually attractive, user-friendly, and responsive on different devices such as computers, tablets, and mobile phones.

Education

- **B.E Electronics and communication engineering**
  Kongunadu college of engineering and technology
  2023 – 2027
- **HSC**
  Bharathi matric higher secondary school
  2022 – 2023
  50%
- **SSLC**
  Bharathi matric higher secondary school
  2020 – 2021
  100%

Projects

- **CNN ENABLED GESTURE INTERFACE FOR AUTOMATING TASKS**
  A CNN-enabled gesture interface uses a camera and deep learning to recognize hand gestures and convert them into commands. It allows users to control devices and automate tasks without touching them, making interaction simple, fast, and efficient.
- **AUTOMATIC ATTEDANCE WHEN PHONE CONNECTED TO COLLEGE WI-FI**
  Developed a smart automation system to automatically enable and connect the mobile device to the college Wi-Fi network based on predefined conditions such as location or network availability. Improved connectivity efficiency by reducing manual intervention and ensuring seamless internet access

Activities

- Attended a online Workshop in the title of "Robotics" at Way 2 me.
- Participated in smart India Hackathon 2025 in the title of "Disaster Response Drone for Remote Areas".
- Attended a Workshop in the title of "AREO DRONZ" at KSR Educational Institutions.
