OBJECTIVE

A passionate Software Engineer with a strong interest in coding, problem solving and software development, seeking a role to enhance my technical skills, build efficient and scalable applications.

TECH SKILLS

Problem solving ability

Critical thinking

Leadership

Python

Java

AREA OF INTEREST

Machine Learning

Software Development

ACHIEVEMENTS

Won 1st place in the GENESIS hackathon for ATM Theft Detection System, collaborating with a senior team.

TOOLS HANDLED

VS Code

EDUCATION

BACHELOR OF ENGINEERING IN ELECTRONICS AND COMMUNICATION

Kongunadu college of engineering and technology. Trichy

CGPA - 9.1 | August 2023 - present

HSC

Shri Ramachandra matric higher secondary school. Elachipalayam

April 2023 | Percentage – 84.3%

SSLC

Shri Ramachandra matric higher secondary school. Elachipalayam

May 2021

Completed a comprehensive Java course, mastering core concepts such as object- oriented programming, data structures, algorithms and design patterns.

INTRODUCTION TO INDUSTRY 4.0 AND INDUSTRIAL INTERNET OF THINGS

Jul 2025 - Oct 2025

Completed a comprehensive IoT course focusing on the design, development and deployment of Internet of Things solutions.

PROJECTS

MINI PROJECT – I | A SMART MEDICINE BOX WITH EXPIRY DETECTION

The Smart Medicine Box is a device that monitors medicine expiry dates and gives alerts when a medicine is near expiry or expired. It helps users avoid unsafe medicines. It is useful for elderly people and patients.

MINI PROJECT – II | AI – BASED HAND GESTURE COMMUNICATION SYSTEM

To develop an AI-based system that enables patients to communicate their needs using hand gestures. The system converts gestures into meaningful messages in real time, helping non-verbal patients interact easily with caregivers.
