### PROFESSIONAL SUMMARY

Aspiring Java Backend Developer with a passion for building efficient, scalable, and user-focused applications. Experienced in developing real-world projects that solve practical problems through clean design and secure implementation. Eager to contribute, continuously learn, and grow in a collaborative software development environment.

### TECHNICAL SKILLS

- **Programming Languages**: Core Java, C
- **Frameworks & Technologies**: Spring Boot, Spring MVC
- **Databases**: MySQL, PostgreSQL
- **Developer Tools**: DBeaver, GitHub, Maven, Postman, IntelliJ IDEA
- **Core CS Concepts**: OOP, Collections Framework, Exception Handling, Multithreading

### INTERNSHIP EXPERIENCE

**Java Backend Developer Intern | MahilTechLab Solution, Namakkal** *Jun 2025 – Jul 2025*

- Assisted in developing backend applications using Core Java and Spring Boot.
- Built and tested RESTful APIs using Spring Boot and Postman.
- Performed CRUD operations using MySQL and PostgreSQL for data management.
- Used Git and GitHub for version control and code management while collaborating with the development team.

### PROJECTS

**College Bus Tracking System** | *Java, Spring Boot, Spring Security, REST API, PostgreSQL, Git*

- Developed a full-stack College Bus Tracking System for administrators, coordinators, and students to manage buses, routes, trips, and live GPS tracking using Java, Spring Boot, and PostgreSQL.
- Built secure RESTful APIs with Spring Boot and Spring Security for authentication, bus management, route management, trip management, and real-time GPS location updates.
- Integrated Leaflet.js and OpenStreetMap for live bus tracking, implemented role-based access control, and deployed the application on Render with a Neon PostgreSQL cloud database.

**AgriLink – Smart Agricultural Workforce Management System** | *Java, Spring Boot, REST API, PostgreSQL, Git*

- Developed a backend application connecting farmers, laborers, and agents to simplify the agricultural recruitment process using Java and Spring Boot.
- Built RESTful APIs for user registration, job posting, and labor management using Spring Boot and MySQL.
- Designed and integrated a MySQL database to store and manage user, job, and application data efficiently.
- Applied Core Java, Object-Oriented Programming (OOP), and REST API principles to develop a maintainable and scalable backend application.

### EDUCATION

**Bachelor of Engineering (B.E.) – Electronics and Communication Engineering** *2027*
Kongunadu College of Engineering and Technology, Thottiyam, Tiruchirappalli

**Higher Secondary Certificate (HSC)** *2023*
Kalaimagal Matriculation Higher Secondary School, Namakkal

**Secondary School Leaving Certificate (SSLC)** *2021*
Kalaimagal Matriculation Higher Secondary School, Namakkal

### CERTIFICATIONS

- NPTEL – Introduction to Industry 4.0 and Industrial Internet of Things (IIoT) | IIT/NIT Consortium
- Core Java Programming Certification – Yellowmatics.ai

### ACHIEVEMENTS

- Selected for Smart India Hackathon (SIH) 2024 and SIH 2025 — ranked Top 50 out of 300+ national competing teams.
- Solved 100+ Java coding problems on GeeksforGeeks, demonstrating strong problem-solving skills and proficiency in Core Java concepts.
- Actively participated in coding contests, hackathons, and technical events to strengthen software development skills.
