OBJECTIVE

Aspiring Electronics and Communication Engineer with a passion for innovation, problem solving, and continuous learning. Seeking an opportunity to apply technical knowledge, analytical skills, and practical project experience in a dynamic organization while contributing to impactful technology solutions and professional growth.

SKILLS

- C
- Java
- Pcb Design
- Embedded system

LANGUAGES

- English
- Tamil

CERTIFICATIONS

- NPTEL Certified in Industry 4.0 & IIoT - IIT Kharagpur
- VAC in Embedded Systems & IoT - Taras
- VAC in Core Java programming - Yellowmatics
- VAC in Pcb design and Fabrication- Kncet

AREA OF INTERESTS

- Embedded Systems and IoT
- PCB Design
- Full Stack Development

INTERNSHIP

Full Stack Development 06/2025

Building dynamic web applications by developing webpack, frontend bundling processes bridging seamless interactions between server.

EDUCATION

Kongunadu College of Engineering and Technology, Thottiam, Trichy, 2023 -2027
Electronics and Communication Engineering
CGPA: 7.71

Kongunadu Matric. Hr. Sec. School, Velagoundampatty, HSC 2022 -2023
HSC: 76.70%

Kongunadu Matric. Hr. Sec. School, Velagoundampatty, SSLC 2020 -2021
SSLC: Passed

PROJECT

Women Safety and Social Security System

- Designed and implemented an IoT-based Women Safety and Social Security System using LoRa wireless communication for long-range emergency alert transmission. Integrated GPS tracking and a panic button to send instant distress notifications and location details to authorized contacts, ensuring reliable communication in low-network areas.

Smart Parking System

- Built an Smart Parking System that integrates Image Processing, Internet of Things (IoT), and Web Technologies to efficiently monitor and manage parking spaces.

Tools & Technologies:

- ESP32-CAM, NodeMCU (ESP8266), Arduino UNO, Ultrasonic Sensors, Image Processing, OCR (Number Plate Recognition)

ACHIEVEMENTS

Special Award (Rs.10,000)-kreativegenesis 2026

- Developed an AI-Powered Voice-Activated Wearable Device for Women Safety with offline emergency alerts.

Special Jury Award in GENESIS'26 2026

- Built an Smart Parking System that integrates Image Processing, Internet of Things (IoT), and Web Technologies to efficiently monitor and manage parking spaces.

HACKATHONS

Hackathon Participations

- GENESIS'26 Hackathon
- Kreative Genesis Hackathon 2026
- SIH(2024,2025)
- Electro bits'26
