DINESHKUMAR S

CYBER SECURITY | NETWORKING | IT SUPPORT

dineshkumar9092a@gmail.com | +91 9092585008|linkedin| GitHub|Portfolio

PROFESSIONAL SUMMARY

Cybersecurity student with practical knowledge of IT support, network support, and network security. Familiar with Cisco configurations, including VLANs, OSPF, NAT/PAT, and ACLs, through academic projects and lab practice. Preparing for the CEH certification, with strong troubleshooting skills and an interest in cybersecurity and network infrastructure.

INTERNSHIP EXPERIENCE

Cyber Crime Intern

Puducherry Cyber Crime Police Station **[06/2025 –07/ 2025]**

- Registered and documented cybercrime complaints, ensuring accurate case intake and record-keeping
- Supported investigation of a social media-based hardware scam case involving fraudulent advertisements targeting shop owners for financial fraud
- Gained practical knowledge of cybercrime case lifecycle from complaint registration to investigation and resolution

Cybersecurity Intern

Elevate Labs **[12/ 2025 – 01 /2026]**

- Gained hands-on experience with security tools including Wireshark, and Nmap for vulnerability scanning and network traffic analysis
- Developed a Web Vulnerability Finder tool to identify common security weaknesses in web applications [GitHub :https://github.com/dineshKumar5008/Web-Vulnerability-Scanner.git

PROJECT

SHALXNETGUARD – Cybersecurity SOC & Network Monitoring Platform [shalxnetguardsocs.tech]
Python, FastAPI, React, TypeScript, Suricata

- Developed a SOC platform for network monitoring, security alert analysis, and host health monitoring.
- Implemented network discovery, topology visualization, and Suricata/EVE alert integration to facilitate proactive network support and threat detection.
- Built and deployed a FastAPI backend and React-based dashboard on Render.

EDUCATION

Bachelor of Engineering

Mahendra Engineering college, Namakkal **2023-2027(final year)**

SKILLS

- Networking: OSI Model, TCP/IP, IPv4 Addressing, Subnetting, VLANs, Routers & Switches, TTL, Basic Network Troubleshooting, Network Cables & Connectivity
- IT Support: Network Support, Hardware & Software Troubleshooting, System Configuration, Network Connectivity Troubleshooting, Basic Windows Support, Peripheral & Device Setup
- Nmap, Metasploit, Burp Suite, Wireshark, Linux, Vulnerability Assessment, Network security
- SIEM (basic knowledge), Log Analysis, Threat Detection, Security Monitoring, Network Traffic Analysis, Vulnerability Management, Endpoint Security Basics

CERTIFICATIONS

- Certified Ethical Hacker (CEH) – EC-Council (In Progress)
- Cybersecurity Virtual Experience Program – Tata Group (Forage)
- Introduction to Cybersecurity and Ethical Hacking – Cisco Networking Academy
