SKILLS

- C
- Java
- Embedded
- Problem Solving
- Critical Thinking

Tools and Frameworks

- VScode
- Matlab.
- Arduino uno

LANGUAGES

- English,
- Tamil

AREA OF INTERESTS

- Web Developing
- Embedded
- Digital Marketing.

SOCIAL NETWORKS

PRIZES

- Awarded First Prize in the Project expo 2025. Electro Ethereal
- Awarded First Prize in the Tecario Hackathon 2025.

PROFILE

Motivated pre-final year student with hands-on experience in Embedded Systems and frontend projects. Skilled in microcontroller programming, sensor interfacing, and developing responsive user interfaces for real-time applications.

EDUCATION

B.E(ElectronicsandCommunication Engineering)

Kongunadu college of Engineering and Technology	*CGPA. 7.75 Upto Fourth Semester*	2023 - 2027
HSC.		
S.V.B. Matric. Hr. Sec. School Thuraiyur	*Percent: 70%*	2022 - 2023
SSLC		
S.V.B. Matric. Hr. Sec. School Thuraiyur	*Percent: 70%*	2020 - 2021

PROJECT

Real-TimeIndustrial Hazard Alert System

To obtain an entry-level role where I can apply my knowledge of embedded systems and IoT to develop real-time safety and monitoring solutions.

Real-Time Dustbin Monitoring System

This project focusss on the logic-based monitoring of two dustbins by calculating the fill level using a fired beight of 130 cm. The system determines the status as Empty, Half Full, or Full and displays the result on the Serial Monitor without adding extra hardware components.

real-time system that converts input text into sign language for effective communication. It supporte hearing- and speech-impaired users by displaying accurate sign representations. The solution promotes accessibility and inclusive interaction using assistive technology.

INTERNSHIP

Front End Web Developer June 2025

A Front-End Web Developer: designs and builds the visual parts of websites that users see and interact with.

CERTIFICATIONS

- Java Programming – LeetCode Python
- Embedded system - Taras System and Solutions
- NPTEL (Elite) - Introduction to Industry 4.0 & IoT
