github.com/Nalineshwaran

SKILLS

- PCB
- Embedded C

AREA OF INTERESTS

- Internet of Things
- Embedded System
- PCB design

TOOLS

- Arduino IDE
- Matlab
- KiCad

INTERNSHIP

Nitroware technologies,coimbatore
- web development June2025

Learned to design responsive web pages using HTML, CSS and JavaScript. I also gained experience in building dynamic web applications and integrating frontend with backend services.

CERTIFICATIONS

- Yellowmatics - Java programming
- NPTEL – Introduction to Industry 4.0
- IoT Embedded system – Taras System and Solutions

HACKATHONS

- Aurigo Software solution 2025-Bangalore
- INNOHACK 2026-VIT Vellore
- Kreative Genesis Hackathon 2026-KGISL,Coimbatore

PROFILE

Motivated Electronics and Communication Engineering student with strong Knowledge in java,Embedded System and Internet of Things(IOT).solving real world problems through innovative technology solution.Seeking an opportunities to learning and growing in a dynamic organization.

EDUCATION

B.E(Electronics and Communication and Engineering)

Kongunadu College of Engineering and Technology	***CGPA: 7.45***	2023 - 2027
HSC Govt Boys Hr.sec. school, Thathiengarpet	***Percent: 63.5%***	2022 - 2023
SSLC Sowdambikaa Hr.Sec. School, Thathiengarpet	***Percent: 100%.***	2020 - 2021

PROJECT

Wildland Fire Monitoring System Using LoRa Technology

To Designed a system to detect and monitor fire conditions in forest areas using sensors. Enabled real-time alerts to improve early fire detection and reduce environmental damage.
Tools Used: Arduino IDE, LoRa SX1278, DHT11 Sensor, MQ-6 Gas Sensor, Flame Sensor, Embedded C.

Performance Analysis of SISO, SIMO and MIMO Wireless Communication Systems in Rayleigh Fading Channel

Analyzed Bit Error Rate (BER) performance under Rayleigh fading and AWGN channel conditions.Evaluated the impact of diversity techniques on reducing transmission errors in wireless channels.Demonstrated that MIMO systems provide improved reliability and lower BER compared to SISO and SIMO systems.
Tools Used: MATLAB, BPSK Modulation, Rayleigh Fading Channel, AWGN Channel, BER Analysis, Wireless Communication Systems.

ACHIEVEMENTS

🏆Awarded First Prize at the National Leve ISTE Project Expo2025, Velammal Engineering College, Madurai, for developing a Real- Time EMG Controlled Wheelchair with IoT-Based Safety and Health Monitoring System.

🏆 Awarded First Prize at the Project Expo 2025, Selvam Engineering College, Namakkal, for the Transmission Line Fault Detection System.
