SUMMARY

Computer Science and Engineering student with a strong interest in software development and front-end technologies. Skilled in HTML, CSS, JavaScript, Java, Python, SQL, and DBMS concepts with practical experience through academic and personal projects. Passionate about learning emerging technologies, developing user-friendly applications, and continuously improving technical and professional skills.

SKILLS

Programming Languages: Java, C, JavaScript
Web Technologies: HTML, CSS
Database: DBMS, SQL
Tools & Platforms: GitHub, VS Code, Canva, PowerPoint
Soft Skills: Communication, Team Collaboration, Creativity, Adaptability, Time Management

EDUCATION

Sri Shanmugha College of Engineering & Technology 2023–2027
B.E Computer Science and Engineering
CGPA: 8.2 / 10

Government Girls Higher Secondary School 2023
Higher Secondary Certificate
Percentage: 78%

PROJECTS

Travel Landing Page **HTML, CSS**

- Developed a responsive travel website landing page with a clean and modern user interface.
- Designed attractive layouts for desktop, tablet, and mobile devices.
- Applied responsive design principles to improve accessibility and user experience.
- Maintained consistency in typography, navigation, and overall design.

AI-Powered HR Recruitment Assistant **HTML, CSS, JavaScript, AI Integration**

- Developed an AI-powered HR recruitment platform to automate candidate screening.
- Implemented resume upload and AI-based resume analysis to evaluate candidate profiles and generate matching scores.
- Integrated an AI chatbot that recommends suitable resume formats based on HR queries.
- Built an interview scheduling module that enables HR to schedule interviews and automatically send email invitations.
- Designed a responsive and user-friendly interface to simplify recruitment workflows and improve hiring efficiency.

ACHIEVEMENTS & ACTIVITIES

- Improved problem-solving skills through consistent coding practice.
- Worked collaboratively on academic team projects.
- Continuously learned new technologies related to web development and software engineering.
- Actively practicing database concepts including DBMS and SQL through hands-on exercises.
- Enhanced logical thinking and debugging skills by solving programming challenges and building projects.

CERTIFICATIONS

- Joy of Computing using Python – NPTEL (2024)
- Cloud Computing – NPTEL (2025)
- Front-End Development Basics – Online Certification

LANGUAGES

- Tamil – Fluent
- English – Intermediate
