MADHUMITHA S

ECE Undergraduate | AI & Software Development (Final Year)

+91 8270772766 • becomingmadhu@gmail.com • linkedin.com/in/madhumitha-suresh-97a761389 • Villupuram, Tamil Nadu

PROFILE SUMMARY

Builder at heart, engineer by training — I don't just learn how software works, I ship it. As a final year ECE student, I've taken Mayilra Fabrics from idea to live production — a client e-commerce site now handling real customers and real payments — and I'm currently building Eventra, a full-stack platform connecting college communities across Tamil Nadu. Good in C/C++ and DSA, Generative AI-certified (GUVI & HCL), and a two-time Smart India Hackathon participant — ready to bring that same build-and-ship energy to a team that values people who deliver, not just learn.

TECHNICAL SKILLS

Languages: C, C++, Java

Frontend: HTML, CSS, JavaScript, React, Tailwind CSS

Database: SQL

AI & Prompt Engineering: Generative AI & Prompt Engineering, NLP Basics, AI-Assisted Development

Freelance: Freelancing, Client Communication, End-to-End Deployment, Firestore, Razorpay Integration

FREELANCE EXPERIENCE

Freelance Web Developer — Mayilra Fabrics (Client Project)

- Built and deployed a live production e-commerce site (Firebase/Firestore, Netlify) with a custom domain, currently serving a real client.
- Worked directly with the business client to gather requirements, handle revisions, and manage the relationship end-to-end.
- Developed an admin panel with live order management, hero slider, tiered delivery pricing, and order tracking backed by real-time Firestore updates.
- Integrated Razorpay for secure payment processing via a custom Netlify serverless function.

PROJECTS

Eventra — Full Stack Community Platform *In Progress*

- Developed a full-stack web platform connecting college communities across Tamil Nadu through curated events and student collaboration features.
- Building modules to streamline event management, improve discovery, and enhance overall user experience.
- Independently handling frontend development, translating requirements into a clean, easy-to-navigate interface end-to-end.
- Currently developing a Java/Spring Boot backend for Eventra to strengthen OOP-based server-side architecture.

UzhavuTech — Farmer-to-Consumer Direct Connect Platform (Concept)

- Conceived a platform idea to directly connect farmers with consumers, cutting out middlemen and enabling fairer pricing for both sides.
- Envisioned features for produce listings, direct ordering, and transparent pricing to give farmers greater market reach and visibility.
- Designed around accessibility for rural users, aiming to bridge the gap between agricultural producers and everyday buyers.

EDUCATION

B.E. – Electronics and Communication Engineering *2023 – 2027*

Government College of Engineering, Salem | Final Year | CGPA: 8.5

CERTIFICATIONS & ACHIEVEMENTS

- 3-Week Generative AI Program — GUVI & HCL
- English Technical Speech Winner — TN Kalaithiruvizha
- NEXUS Symposium Participant — GCT Coimbatore

HACKATHONS & WORKSHOPS

- Generative AI Engineering: Foundations, RAG & Deployment — GUVI & HCL
- Smart India Hackathon 2024 & 2025 — Two-Time Participant

PROFESSIONAL INVOLVEMENT

- Secretary, Rotaract Club — Leadership & Team Coordination
- Treasurer, Technical Club — Technical & Event Management

TECHNICAL EXPOSURE

- Building AI-Powered Websites for Startups and Business Brands
- Freelance Full-Stack Development for Client Businesses

SOFT SKILLS

Leadership • Effective Communication • Strategic Problem Solving • Technical Adaptability
