CAREER OBJECTIVE

An enthusiastic and self-motivated individual with hands-on experience in Python, Excel, Power BI, and Tableau, eager to start a career in Data Analyst and Business Analyst. Aiming to apply technical skills and problem-solving abilities to contribute to innovative projects and data-driven solutions. Committed to continuous learning and excited to grow within a dynamic team, focused on leveraging analytical expertise to drive insights and support strategic decisions.

EDUCATION

ARUNACHALA COLLEGE OF ENGINEERING FOR WOMEN **2023-2027**
Bachelor of Technology in Artificial Intelligence and Data Science
CGPA: 8.10 (till 6th Semester)

N. V. K. S Senior Secondary School **2022-2023**
Higher Secondary Education (State Board)
Percentage: 70.1%

N. V. K. S Senior Secondary School **2020-2021**
Secondary Education (CBSE)
Percentage: 70%

INTERNSHIPS

Srishti Innovatives | Flutter Intern **February 2025**

- Designed responsive UI screens and reusable widgets.
- Designed user authentication, chat screens, and contact management interfaces.
- Created responsive screens for restaurants, menus, orders, and user profiles.

Srishti Innovatives | Front-end Intern **July-Aug 2025**

- Developed a responsive Flipkart-inspired e-commerce website using HTML, CSS, and JavaScript.
- Created interactive user interfaces with reusable components and responsive layouts.
- Designed product listing, navigation bar, search, and shopping cart interfaces.

FlyRank | Machine Learning Intern **July-present**

- Working on machine learning concepts and their practical implementation using Python.
- Applying machine learning algorithms to solve real-world problems.
- Working with datasets for data cleaning, feature engineering, model training, and evaluation.

PROJECTS

Sensory Path: Occupational Therapy Activity & Sensory Learning Platforms

- Implemented activity management features to organize therapy sessions and learning resources**.**
- Designed an intuitive dashboard for managing therapy activities, recording performance, and viewing progress over time.

Consumer Behavior Analysis

- Conducted end-to-end consumer behaviour analysis using Python, SQL, and Power BI.
- Identified shopping trends, customer segments and actionable insights.

WhatsApp Interface Design

- Developed a cross-platform WhatsApp-inspired mobile application using Flutter and Dart.
- Designed responsive interfaces for Chats, Status, Calls, Contacts, and User Profile screens.

SKILLS

Programming language: Python
Tools/Platforms: Tableau, Power BI, Microsoft Excel
Databases: SQL, MongoDB
Deployment: Azure

PATENTS

IoT-based collision detection when two trains are approaching on the same track
Application No:202541097285
Published on October 10, 2025

CERTIFICATES

- Introduction to IoT, NPTEL
- Database Management System, NPTEL
- Deloitte Data Analytics Job Simulation, Forge
- Data Analyst, Learnbay
- Data Visualization with Microsoft Power BI, Infosys

CO-CURRICULAR ACTIVITIES

- Participated in technical workshops, webinars, and Hackathons
- Built multiple academic projects in IoT and web technologies
- Completed online courses and certifications in emerging technologies
- Experience in collaborative project development and presentations
- Google Summer of Code Contributor
