OBJECTIVE

Enthusiastic final-year ECE student with hands-on experience in embedded systems and IoT (Arduino, ESP32) and full-stack development, seeking to apply strong fundamentals in electronics and communication to build reliable, real-world engineering solutions while continuously growing as a technologist.

EDUCATION

B.E. — Electronics and Communication Engineering *2023 – 2027*
Knowledge Institute of Technology | CGPA: 7.3%

HSC (Class XII) *2022 – 2023*
Swamy Vivekanandar Matric Hr. Sec. School | 71.5%

SSLC (Class X) *2020 – 2021*
Swamy Vivekanandar Matric Hr. Sec. School

TECHNICAL SKILLS

- **Programming:** C, Java
- **Embedded / IoT:** Arduino, ESP32
- **Tools & Simulation:** TSMaster, Simulink
- **Web:** HTML, CSS

INTERNSHIPS

Full Stack Development Intern — DEV Technology Solutions
- Gained hands-on experience in full-stack development, focusing on the end-to-end design and deployment of web applications.

Basic Electronics Intern — Udhgeeth Tech
- Gained hands-on experience working with electronic circuits and components.

PROJECTS

- **AgroLink —** Online platform built using HTML, CSS, and Java connecting farmers directly to buyers for product sales.
- **Illegal Mining Monitoring System —** IoT system using GPS geofencing, biometric authentication, and solenoid bolt locking to detect and prevent illegal sand mining.
- **Smart Irrigation Rover —** Autonomous rover using ESP32 and soil moisture sensors with Blynk IoT for real-time remote monitoring and motor-controlled navigation.
- **Electric Bike —** Designed and assembled a custom electric bike including wiring, motor integration, and controller setup; performed testing and troubleshooting of electrical components.

ACHIEVEMENTS

- **Indian E-Bike Championship —** Awarded ₹5,000 cash prize for Best Presentation and 1st place at a national-level electric vehicle competition (Design, Innovation, Build Quality & Business Presentation), IES University, Bhopal.

CERTIFICATIONS

- NPTEL — Sensors and Actuators
- Typing — English (Lower)
