PROFESSIONAL SUMMARY

Results-driven Quality Engineer with hands-on experience in manufacturing quality inspection and testing of Vacuum Circuit Breakers (VCB). Skilled in process quality control, PPM analysis, and ERP systems. Strong understanding of core mechanical engineering concepts with GATE exam exposure. Seeking to contribute to quality excellence in a leading multinational manufacturing organization.

GATE 2026 (Mechanical Engineering)

1. Score: 318 | AIR: 10,448
2. Strong exposure to core subjects: Strength of Materials, Thermal Engineering, Manufacturing

PROFESSIONAL EXPERIENCE

Process Quality Engineer – Sunkid Electro System (May 2024 – Present)

1. Monitored manufacturing processes to ensure adherence to quality standards and reduce defects.
2. Performed detailed inspection and testing of Vacuum Circuit Breakers (VCB).
3. Maintained accurate quality reports and supported audit documentation.
4. Collaborated with production teams to improve process consistency and reduce rework.

Project Support – BHEL Railway Brake System Components

1. Conducted magnetic value inspection of ferromagnetic components used in Indian Railway brake systems.
2. Validated components according to required quality standards.

TECHNICAL SKILLS

1. CAD Tools: SolidWorks, Solid Edge V20
2. Quality Tools: PPM Analysis, Inspection & Documentation
3. ERP Systems: GoodBooks / ERP Software
4. Data Tools: MS Excel
5. Manufacturing Process Quality Monitoring

ACADEMIC PROJECTS

1. **Experimental Investigation of Metacentric Height of Floating Body** – Studied stability characteristics of floating bodies using experimental methods.
2. **Ambient Light & Temperature Monitoring System using Arduino** – Developed a monitoring system using sensors for light and temperature with motion sensor integration.

INDUSTRIAL TRAINING & INTERNSHIPS

1. **Good Wing Motors – EV Technology Internship (July 2023)** – Learned EV technology, battery management systems, automotive electronics, and CAN communication.
2. **SML ISUZU Workshop – Internship (Feb 2022)** – Exposure to vehicle diagnostics, engine service procedures, and maintenance operations.

EDUCATION

1. B.E Mechanical Engineering – The Kavery Engineering College (Anna University) – CGPA: 8.11
2. HSC – Sri Jothi Hr. Sec. School – 90%
3. SSLC – Government High School – 88%

LANGUAGES

1. Tamil
2. English
