PROFESSIONAL SUMMARY

B.Tech Information Technology student with a strong foundation in Java, Python, Object-Oriented Programming, SQL, Data Structures, debugging, and problem solving. Hands-on experience developing AI, Machine Learning, and web-based applications using Flask, Streamlit, FAISS, and Git/GitHub. Experienced in team-based project development and interested in building scalable, maintainable software applications while continuously learning modern technologies.

TECHNICAL SKILLS

Programming: Java, Python
Core Concepts: OOP, Data Structures, Algorithms, Arrays, Strings
Database: SQL, MySQL
APIs: REST API (Basic)
AI & Machine Learning: Machine Learning, RAG, NLP, LLMs, Embeddings
Tools: Git, GitHub, VS Code, Streamlit, FAISS, Postman (Basic)
Software Development: SDLC, Debugging, Unit Testing (Basic), Problem Solving

EDUCATION

B.Tech – Information Technology
Excel Engineering College (Autonomous), Tamil Nadu | Expected 2027
CGPA: 7.5/10

PROJECTS

AI-Powered College Assistant Chatbot (RAG) | Team Leader
- Developed an AI-powered college assistant chatbot using Retrieval-Augmented Generation (RAG).
- Implemented document retrieval using FAISS and sentence-transformer embeddings.
- Developed backend functionality using Flask and integrated LLM-based responses.
- Implemented fallback mechanisms and speech-based interaction.
- Collaborated with team members throughout project development and testing.

House Price Prediction Using Machine Learning | Developer & Team Lead
- Developed a web-based house price prediction application using Python and Streamlit.
- Performed data preprocessing and feature handling using real-estate/Kaggle datasets.
- Applied Machine Learning models for house price prediction.
- Evaluated model performance and improved the prediction workflow.

INTERNSHIP EXPERIENCE

Intern | First Matrix Solution
- Gained practical exposure to software development and project-based implementation.
- Worked with team members to understand requirements and complete assigned development tasks.
- Applied programming and problem-solving concepts in a practical environment.

CERTIFICATIONS

- Young Professional – TCS iON
- Python & IT (Intermediate) – Imagecon Academy
- Frontend Framework Program – GUVI

CORE STRENGTHS

Problem Solving | Communication | Team Collaboration | Critical Thinking | Adaptability | Time Management | Quick Learning

LANGUAGES

English | Tamil
