SUMMARY

Results-driven CRM Executive with experience in healthcare operations, insurance pre-authorization, customer support, and process coordination. Skilled in managing cashless insurance workflows, maintaining SLA/TAT compliance, coordinating with TPAs and insurance providers, and ensuring accurate documentation. Proficient in CRM systems, Microsoft Excel, data validation, and stakeholder communication. Seeking opportunities in Operations, CRM, Healthcare Support, Business Operations, or IT Service Management.

WORK EXPERIENCE

Customer Relationship Management (CRM) Executive

Bengaluru *july 2024 - june 2026*

Roles & Responsibilities:

• Accomplished timely processing of cashless insurance requests, as measured by consistent SLA/TAT compliance, by verifying patient eligibility, insurance policies, and pre-authorization requirements before submission.

• Accomplished accurate case management, as measured by high-quality documentation and minimal processing errors, by maintaining pre-authorization letters and customer records within the CRM system while following healthcare insurance guidelines.

• Accomplished effective stakeholder management, as measured by faster issue resolution, by coordinating with insurance companies, TPAs, hospital billing teams, and internal departments to resolve case-related queries.

• Accomplished efficient workflow management, as measured by on-time case closures, by monitoring turnaround time (TAT), prioritizing critical requests, and ensuring adherence to SLA commitments.

• Accomplished accurate data validation, as measured by consistent database integrity, by reviewing customer information, updating CRM records, and maintaining complete documentation throughout the case lifecycle.

• Accomplished process improvement, as measured by reduced treatment and discharge delays, by tracking pending cases, identifying bottlenecks through basic root cause analysis (RCA), and coordinating with relevant stakeholders for prompt resolution.

• Accomplished quality assurance in non-voice CRM operations, as measured by compliance with internal quality standards, by performing documentation reviews, case tracking, and maintaining process accuracy.

• Accomplished operational reporting and MIS support, by maintaining accurate case records and generating reports using CRM tools and Microsoft Excel.
