## CAREER OBJECTIVE

Computer Science Engineering graduate with a strong foundation in Java programming and web development. Skilled in developing responsive web applications using Java, HTML, CSS, and SQL. Possesses a good understanding of object-oriented programming, database management, machine learning concepts, and problem-solving techniques.

## EDUCATION

**BE in Computer Science and Engineering** 2024-2027
Kongunadu College of Engineering and Technology, Trichy
CGPA – 6.985- upto 6 th sem

**Diploma Computer Engineering** 2022-2024
Kongunadu Polytechnic College ,Trichy
CGPA – 9.2

**Class XII - Examination Score:** 2021-2022
**Percentage:** 63%
HSC, Elurpatti

## TECHNICAL SKILLS

- Java Programming
- HTML,CSS
- Database
- Java , C
- MySql
- Sql

## SOFT SKILLS

- Leadership
- Time Management
- Teamwork
- Problem-Solving

## ACADEMIC PROJECTS

**Hand Gesture Based Multi Media Controller**

- Developed a real-time AI-based system to detect and recognize hand gestures using a camera.
- Implemented computer vision techniques to identify hand movements and gestures accurately.
- Enabled touch-free media control for functions such as play, pause, and volume adjustment.
- Designed a user-friendly interaction system that provides convenient and hands-free device control.

**Technologies Used:** Python, OpenCV, MediaPipe, Machine Learning, Computer Vision, NumPy.

**Leaf Plant Disease Prediction System**

- Developed a machine learning-based system to detect and classify plant leaf diseases from images.
- Applied image processing and deep learning techniques to identify diseases with high accuracy.

- Enabled early disease detection to support timely treatment and reduce crop loss.
- Provided a practical solution for farmers to improve plant health and agricultural productivity.

**Technologies Used:** Python, TensorFlow, , CNN, Machine Learning, Image Processing.

**Electronic Health Records (EHR) System**

- Developed a web-based Electronic Health Records (EHR) system for efficient management of patient medical records.
- Implemented centralized storage and retrieval of patient information using a MySQL database.
- Enabled healthcare providers to securely access and update patient records efficiently.
- Improved healthcare record accessibility and management, supporting faster and more efficient medical services..

**Technologies Used:** HTML, CSS, JavaScript, PHP, MySQL.

## INTERNSHIPS

**Artificial Intelligence & Machine Learning Intern - Inspire Soft Tech Solutions** **Dec-2024**

- Gained practical exposure to AI and Machine Learning concepts including data preprocessing, model training, and model evaluation.
- Implemented machine learning algorithms and studied real-world AI applications.

**Web Development Intern - Aiverz Technologies** **June-2025**

- Developed responsive web pages using HTML, CSS, and JavaScript.
  Built user-friendly web applications and gained experience with real-time development workflows.
- Developed and tested interactive web features using JavaScript to improve website functionality and user experience.

## CO-CURRICULAR CERTIFICATIONS

- Participated in technical events at other colleges and won prizes.
- Attended workshops and seminars at various colleges to enhance technical knowledge.
- Took part in hackathons and coding competitions organized in college.

## HACKATHONS

- Participated in **ImpactX 3.0** Hackathon at Joseph's Institute of Technology.

## CERTIFICATIONS

- Completed a **Value-Added Course** on **Core Java, Python** at my college.
- **NPTEL Certificate** for **Introduction to IOT and Software Testing**. And **Introduction to Machine Learning.**

## DECLARATION

I hereby declare that all the information furnished above is true and correct to the best of my knowledge and belief.
