ABOUT ME

Innovative biomedical engineer skilled in designing advanced healthcare devices, with a focus on integrating electronics with medical applications to improve patient safety.

EDUCATION

B.E. Biomedical Engineering — CGPA 8.595 (6th Semester) **Expected 2027**
Kongunadu College of Engineering and Technology, Thottiyam
Higher Secondary Certificate (HSC) -Bio-Maths :79.6% | SSLC: 70.6%
G.H.S. School, P. Mettupalayam.

PROJECTS

Project 1 **2026**
Title: Snakebite Emergency Response System with Real-Time Monitoring & Notification Alert

- A smart wearable system for early venomous species detection, user alerts, and emergency safety assistance.
- Technologies used: Embedded Systems, Ultrasonic Sensing, IoT, Air Pump Motor, GSM, Relay Module.

Project 2: **2026**
Title: A Smart Alert and Active Protection System for Venomous Species

- Utilizes ultrasonic, mmWave radar, and camera sensors for threat detection, triggering alerts and protective mechanisms through a microcontroller.
- Future enhancements include GPS tracking, and AI-based identification.
- Technologies used: Ultrasonic Sensors, mmWave Radar, Natural Repellent Spray, Embedded Systems, IoT, GSM, and Buzzer, Relay Module, Air Pump Motor & Water Pump Motor.

INTERNSHIP EXPERIENCE

Anchor Medical Devices **Salem**

- Completed an internship gaining practical knowledge of medical device manufacturing and quality assurance; assisted in device testing and learned industry-standard biomedical engineering practices.

SK Biomedical — Sales & Service **Coimbatore**

- Gained hands-on exposure to biomedical equipment sales, servicing, and maintenance; assisted with troubleshooting, calibration, and preventive maintenance while learning customer support and service management practices.

Hospital Training — Abhi SK Hospital **Gobichettipalayam**

- Completed hospital training as a Hospital Trainee, gaining exposure to clinical workflows and biomedical equipment used in patient care. observed the operation, maintenance, and safety practices of medical devices across hospital departments.

SKILLS

Technical: Bio-instrumentation, Anatomy & Physiology, Diagnostic & Therapeutic Equipment, Image Processing, Medical Coding

Programming Languages: Java

Soft-Skill: Leadership Quality, Problem Solving, Team Collaboration,

COURSE COMPLETION

- LeetCode (Java)
- Medical Coding
- Embedded Systems with IoT
- Biomedical Hardware Instrumentation Training

Languages Known: Tamil, English, Hindi (4exam-completed)

ACHIEVEMENTS / AWARDS

- Won second prize in a **Scientific Quiz** at Vellalar College of Engineering and Technology, Erode.
- Won second prize for a **poster presentation** at KPR College.
- Won second prize in the **SCHWAN TECH 3.0** - 24-hour intra-college Hackathon (KNCET).
- Participated in the **MSME** and **SIH** (Smart India Hackathon) competitions.
- Selected among the Top 40 teams out of 180 participants in the **TN Startup Eye Innovate Hackathon.**
- Selected among the Top 140 teams out of 380 participants in the **AMTZ-MEDTECH Zone Hackathon**, Andhra Pradesh.

HOBBIES

- Actively sing and enjoy playing chess competitively as a strategic mental exercise.
- Take initiative as a motivator, encouraging and inspiring peers.
- Love travelling and exploring new places and cultures, and enjoy drawing as a creative way to relax and express myself.
