OBJECTIVE

Final-year Computer Science and Engineering student with practical experience in software development, AI/ML, and full-stack application development gained through internship and national-level hackathons. Looking for an opportunity where I can apply my technical skills, problem-solving ability, and passion for building impactful technology solutions.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript
Web & Backend: Flask, HTML, CSS, SQL, MongoDB
Data & Visualization: Streamlit, Plotly, Pandas
AI/ML Exposure: Hugging Face Transformers, Computer Vision, PyTorch

ACADEMIC PROJECTS

LEO-PNT Navigation System (SIH Project)
Tech Stack: *PyQt6, Raspberry Pi, GNSS (GPS), IMU (MPU-9250), SDR (HackRF)*

- Developed a resilient PNT system by fusing GNSS, IMU, and SDR data to maintain positioning in signal-degraded environments.
- Built the sensor-fusion pipeline and a PyQt6 dashboard for real-time navigation monitoring.

eDNA Biodiversity Analysis System
Tech Stack: *Python, PyTorch, Hugging Face Transformers (DNABERT), Streamlit, Plotly, Scikit-learn, HDBSCAN, UMAP*

- Built an AI platform to classify eDNA sequences for biodiversity analysis using a fine-tuned DNABERT model.
- Integrated HDBSCAN clustering with a Streamlit dashboard for interactive species visualization and analysis.

AI Virtual Try-On System
Tech Stack: *Python, Flask, Computer Vision, Hugging Face*

- Developed a Flask web application integrating a Hugging Face computer-vision model to render realistic clothing overlays on user-uploaded images
- Designed the complete image upload, AI inference, and result visualization pipeline using Flask.

EDUCATION

Bachelor of Engineering (B.E.), Computer Science and Engineering
Kongunadu College of Engineering & Technology, Thottiyam, Tamil Nadu 2023 - 2027
CGPA: 8.602/10

Higher Secondary Certificate (Class XII)
Paree Matriculation Higher Secondary School, Pullambadi 2022 - 2023
87.33%

INTERNSHIP / TECHNICAL EXPOSURE

- Full Stack Development Intern at Astonish Infotech Private Limited, Contributed to live application features across the front-end and back-end stack
- Completed value-added coursework in Django and Flask
- Participated in 0X.Day Hackathon, VIT Bhopal Hackathon, and multiple inter-college hackathons
- Presented technical work at an inter-college Paper Presentation event.
- Attended hands-on workshops in Web Development, AI, and App Design.

ACHIEVEMENTS

- Selected as National Finalist, AISE Hack 2026, a national-level hackathon.
- Awarded Third Prize, Intra-College AD Hackathon 2026 for AI virtual try-on system.
- Shortlisted as a Finalist, Smart India Hackathon 2025 (LEO-PNT navigation and positioning system).
- Won First Prize, Intra-College IT Hackathon 2025, for collaborative problem-solving under a 24-hour time constraint.
