SRIMOKESH C

9080976550 | srimokeshofficial@gmail.com | LinkedIn | GitHub: github.com/SRIMOKESH7

CAREER SUMMARY

B.Tech Information Technology graduate with hands-on experience building full-stack, interactive web applications — including a React-based admin dashboard with live data visualization and map integration, and a Flask-based accessibility tool. Comfortable across front end, back end, and API integration, with a strong interest in building engaging, user-facing digital experiences. Seeking a Web Developer / Front-End Developer role to contribute to interactive product platforms.

EDUCATION

- B.Tech – Information Technology, Bannari Amman Institute of Technology, Sathyamangalam — 2022–2026 (Completed) | CGPA: 7.71
- Higher Secondary (Class 12), Jayarani Matriculation Higher Secondary School, Salem — 2021–2022 | 74.5%
- Secondary (Class 10), Jayarani Matriculation Higher Secondary School, Salem — 2019–2020 | 70.4%

TECHNICAL SKILLS

Front-End: HTML5, CSS3, JavaScript, React (18), Tailwind CSS, Vite
Back-End / Services: Flask, REST APIs, Supabase, Firebase
Data Visualization & Maps: Recharts, Leaflet, Google Maps tiles
Programming Languages: Python, C, JavaScript
Tools & Platforms: Git, GitHub

PROJECTS

ADAR Admin Dashboard | *React 18, Vite, Tailwind CSS, Recharts, Leaflet, Supabase, Firebase*
github.com/SRIMOKESH7/ADAR_Admin

- Built a full-stack, map-driven admin dashboard for managing and verifying citizen reports, combining a live analytics view, a sortable/filterable reports table, and a photo verification interface.
- Implemented interactive map-based report tracking with Leaflet and Google Maps tiles, secure authentication, and real-time charts with Recharts.
- Built a responsive, mobile-friendly UI with Tailwind CSS and integrated Supabase/Firebase for backend services.

PDF to Audiobook | *Python, Flask, JavaScript, gTTS*
github.com/SRIMOKESH7/PDF-to-Audiobook

- Built a full-stack web application (Flask back end, JavaScript front end) that converts PDF documents into natural-sounding audio via Text-to-Speech, improving accessibility for visually impaired users.
- Designed the text-extraction pipeline and continuous audio-playback flow through a responsive browser interface.

Sentiment Analysis | *Python, HTML, CSS*
github.com/SRIMOKESH7/Sentiment_Analysis

- Developed an NLP pipeline to classify text sentiment, processing 1,000+ reviews with tokenization and stop-word removal, and connected a real-time front-end interface to serve predictions via API.

CERTIFICATIONS

- The Complete Python Developer – Udemy: Deep-dive Python certification covering core programming, web development, and automation; applied to real-world projects involving CSV/PDF data handling.
- Generative AI Mastermind – Outskill: Covered prompt engineering, generative AI use cases, and applied AI workflows.

ACHIEVEMENTS / POSITIONS OF RESPONSIBILITY

- Internal Project Exhibition, Bannari Amman Institute of Technology: Presented a technical project to faculty and peers, demonstrating technical communication and presentation skills.
- Naalaiya Kalaam 2024: Participated in non-technical quiz and general knowledge rounds, showcasing versatility and quick thinking.

SOFT SKILLS

Problem Solving • Team Collaboration • Quick Learning Ability • Adaptability
